

# Eika Boligkreditt

Investor presentation

*February 2023*

# Executive summary

## • The economy

- GDP-growth -2.8% in 2020, but strong rebound of +4.1% in 2021. +3.8% for 2022. Expected slightly below trend growth going forward
- Unemployment rate 1.9% in January 2023
- Higher mortgage rates are expected to lead to slightly lower house prices going forward
- Inflation expected to overshoot inflation target and economy operating at full capacity leads to higher policy rates going forward (from 2.5% today to around 3.0% during the winter 2022/23 according to Norges Bank)

## • Robust, local saving banks

- 3<sup>rd</sup> largest Norwegian banking group
- Focus on retail lending
- High asset quality with low levels of doubtful & non-performing loans, low LTV and no direct exposure to oil/offshore/shipping
- Strong and diversified deposit base
- Strong capitalization and high level of liquidity buffers
- Strong position in the local markets

## • Conservative cover pool

- Maximum 75% LTV for mortgages at origination and strict underwriting criteria
- 100% residential assets as mortgage collateral
- Prudent risk management with regards to refinancing, liquidity, currency, interest rate and counterparty risk
- Credit guarantees from the distributors and capital and liquidity support agreements with the owners

# Agenda

# The Norwegian economy – Relative solid economic situation

Real GDP growth (rebased to 100 in 2007)

Source: OECD Economic Outlook No. 112 (database), November 2022

Government net lending (% of GDP)

Source: OECD Economic Outlook No. 112 (database), November 2022

Government Pension Fund Global

Source : The National Budget 2021, Statistics Norway

- Economic GDP Mainland growth average of 1.6% p.a. last 10 years
- Strong current account surplus averaging 7.9% of GDP since 2012

- Significant positive government net lending (+9.9% of GDP in 2021) expected for 2022 and 2023 due to high energy prices
- Government Pension Fund is almost three times the size of GDP

- Norway has a strong balance sheet
- High net central government financial assets (380% of GDP in 2020)

# The Norwegian economy – Unemployment and inflation

## Norway has consistently low unemployment rate historically

Source: OECD Economic Outlook No. 112 (database), November 2022

- A stable economy has ensured a high rate of employment
- After the COVID-19 outbreak unemployment increased dramatically due to temporary lay-offs, but labour market back to normal after full reopening of the economy

## Unemployment rate

Source: NAV, January 2023

- 1.9% unemployment rate in January, lower than before COVID19. Last measures were lifted February 1<sup>st</sup> 2022
- CPI was 7.0% YoY in January. Core inflation was 6.4% YoY. Core inflation is expected to overshoot the inflation target of 2.0% over the next 2-3 years
- Subsidy scheme for electricity for Norwegian households have reduced CPI with 1.1% YoY

## Inflation & inflation target

Source: Statistics of Norway & Norges Bank MPR 4/22

- A strong welfare system provides significant income protection: unemployment benefit is 62.4% of salary (capped at NOK 599,148) for a minimum of 104 weeks

# The Norwegian economy – GDP

- GDP growth contracted by 2.8 % in 2020 driven by reduced private consumption, reduced investments and reduced export.
- Rebound in GDP in 2021 with growth of 4.1% driven by a reversal of negative development in private consumption, investments and export in 2020.
- GDP growth of 3.8% 2022 driven by consumption, other investments and export

- Mainland GDP increased by 0.8% in Q4 2022. Q3 was revised down to 0.4% from 0.8%, Q2 was revised down to 1.0% from 1.2% and Q1 up from -0.5% to 0.1%.
- For Q4, private investments, housing investments and private consumption were positive drivers. Public investments, export and manufacturing and mining were negative drivers.

# The housing market characteristics in Norway

|                                |                                                                                                                                                                                                                                                                                                                                                                                                                             |                           |                                                                                                                                                                                                                                                                                                                                                                                                          |

\* December 9<sup>th</sup> 2022 the Ministry of Finance decided to continue the current mortgage regulation with minor changes for the stress test with effect from January 1<sup>st</sup> 2023. The regulation expires December 31<sup>st</sup> 2024.

\*\* Six weeks notice until 1 July 2023

# The housing market – Price development

Nominal house price development

House prices larger cities (twelve-month change)

House prices (monthly and twelve-month change)

- Nominal house prices have increased by an average of 5.3% per annum since 2010
- Nominal house prices increased by 1.5% in 2022 (+5.2% 2021) but -6.7% in 2<sup>nd</sup> half year 2022

- The strong rise in Q1 2022 was related to the introduction of a new Disposal Act, coming into force on 1 January. The new act caused a temporary drop in supply.
- Higher mortgage rates are expected to lead to slightly lower house prices going forward

- Median house price (last 6 months) in Norway is €352 thousand, median house price in Oslo is €473 thousand
- Average m<sup>2</sup> price last 6 months in Norway is €4,756 and €8,482 in Oslo

# The housing market – Drivers of the housing market

Housing starts (twelve-month change)

Source: Statistics Norway, January 2023

- Housing starts down by 0.9 % in 2022 compared to 2021
- Housing investments increased by 1.4 % in Q4 2022 after three quarters with negative development in housing investments

Population growth

Source: Statistics Norway, Q4 2022

- Net immigration down from above 47,000 in 2011/12 to 11,000 in 2020, but increased to 20,000 in 2021 and sharply up to 58 000 in 2022. Net births increased in 2021 compared to 2020 but sharply lower in 2022. Immigration sharply up in 2022 mainly due to immigration from Ukraine
- The population growth of 0.9% p.a. since 1997 has been driven both by excess birth rate (36%) and net immigration (64%)

Interest rates

Source: Norges Bank, MPR 4/22

- Average variable mortgage rates was 4.06% in December. Average deposits rates was 1.51% and average loan margins was 0.64%. Mortgage rates, deposits rates and loan margins will increase going forward both due to expectations for further increases in policy and money markets rates and the 6 week notice period before new rates takes effect for mortgages and deposits

# Agenda

- The Norwegian economy
- Eika Alliance
- Eika Boligkreditt
- ESG at Eika
- Eika Boligkreditt's Green Bond Framework
- Appendix
- Disclaimer

# 3<sup>rd</sup> largest Norwegian banking system

- **The Eika Alliance consist of a group of 50 Norwegian local banks<sup>1</sup>, Eika Gruppen and Eika Boligkreditt**

- Total assets EUR 45 bn
- 700,000 customers
- 1,850 employees
- 177 branch offices

- **The banks have a wide geographical reach (presence in 10 out of 11 counties) with a strong position in the vibrant economic centres in Central and Eastern Norway**

- **Local banks with a unique market position**
  - The Eika banks rank high on client experience
  - Local based knowledge and credit committee decisions
  - Perceived to care about their clients
- **Market share in lending to retail customers**
  - Up to 80% in local markets (except the largest cities)
  - 9.4 % market share retail lending in Norway

<sup>1</sup> 10 banks have terminated their agreements with Eika Gruppen and left the Eika Alliance. The 10 banks left the alliance when their agreements terminated October 24<sup>th</sup>, 2021, and sold their shares in Eika Gruppen, 11.9% of total number of shares, to the remaining Eika banks regulated in an agreement dated February 10<sup>th</sup>, 2022. These banks have transferred 11.2% of the portfolio in Eika Boligkreditt as of 2022Q4. Eika Boligkreditt have terminated the distribution agreement with effect from January 1<sup>st</sup>, 2022. Se appendix for a description of the effect of cancellation of the distribution agreement.

# The Eika Alliance

Eika Boligkreditt AS

Covered Bond Funding

Eika Gruppen AS

Provides products and services to bank clients

Provide services to banks

Infrastructure / IT

Strategy and Lobbying

Bank2 and Sandnes Sparebank are only shareholders in Eika Gruppen AS. OBOS and the 10 banks that left The Alliance are only shareholder in Eika Boligkreditt AS. OBOS is the largest Nordic Cooperative Housing Association, established in 1929 and is owned by 454,000 members, mostly located in the Oslo-area. More information about OBOS can be found on [www.obos.no](http://www.obos.no)  
\* The 10 banks that have terminated their agreements with Eika Gruppen, sold their shares in Eika Gruppen and left the alliance

# Achieving economies of scale, while being local

## I. Eika banks

- The saving banks are independent banks with very strong local focus, and operate solely in the local markets where they have been active for almost 200 years

## II. Eika Gruppen

- The smaller Norwegian Savings banks established the Eika Alliance in 1997.
- Efficiency in banking operations and IT infrastructure
- Realize the economics of scale
- Jointly owned product companies (insurance, mutual funds etc)
- Shared resources to handle regulatory changes

## III. Eika Boligkreditt

- Provider of covered bond funding

### Efficiency

- Work as if one integrated entity
- Operational integration
- Offer non-core banking products through jointly owned product companies

Alliance programme

### Total funding sources

Source: Bank analyst Eika as of Q2 2022

# Focus on retail customers

- Eika banks have a large and stable retail customer base
- Retail lending accounts for 80.5% of Eika banks' total lending
- Eika banks have a higher share of retail lending compared to the other Norwegian banks
- Retail lending consist predominantly of mortgage collateralized housing loans (approx. 93% of total)
- Low average LTV of 61.2% in mortgage portfolio YE2021

## Local market focus

- Decisions are made close to the customer and transaction originations
- Each bank continues to develop its link with its local community
- Keeping its own name and legal entity

Separate legal entities and a common support brand

## Retail share - Eika vs. peers

Source: Bank analyst Eika as of Q4 2021

## Breakdown of the Eika banks lending

Source: Bank analyst Eika as of Q2 2022

# High asset quality

- Conservative risk profile for the lending portfolios
- Eika banks have low exposure to the corporate sector with no lending to shipping, oil sector and relatively low exposure to commercial real estate
- Few non-performing and doubtful loans (Q4 2021):
  - Gross non-performing loans constitute 0.49% of gross loans compared to 0.39% for sector
  - Gross doubtful loans constitute 0.64% of gross loans compared to 0.97% for sector
  - Provisioning ratio on problem loans of 43.7% Q4 2021
- Gross problem loans relative to equity + loan loss reserves was 7.5% in Q2 2021, down from 8.9 % in Q4 2020
- Loan loss provision ratio was -0.01% in 2021, down from 0.20% in 2020. The average for the last 10 years is 0.13% whereas the average for the sector in 2021 was 0.03%

## Low LTV in mortgage portfolio (bank book)

Source: Eika Boligkreditt as of Q4 2021

## Sector breakdown of the loan book (incl.EBK)

Source: Bank analyst Eika as of Q4 2021

# Strong capitalization

- **Strong capital ratios – Q4 2021**
  - Common equity ratio (CET1): 19.7%
  - Core capital ratio: 20.8%
  - Capital ratio: 22.6%
  - Equity ratio (Equity/Total assets): 11.8%
- **All Eika banks are well capitalized (core capital ratio)**
  - Lowest: 17.6%
  - Highest: 27.9%
- **All Eika banks use the standard approach under Basel II and therefore increase in mortgage risk-weights will not impact capital levels of Eika banks**
- **If Eika banks were using the IRB method, the core and capital ratio Q4 2021 are estimated to be 27.0% and 29.3%**

## Minimum capital requirements for Eika

\*The Systemic risk buffer will be increased from 3.0 percent to 4.5 percent with effect from Dec.31<sup>st</sup>, 2023

\*\*The CCyB will be increased from 1.5 percent to

- 2.0 percent with effect from Dec. 31<sup>st</sup>, 2022

- 2.5 percent with effect from Mar. 31<sup>st</sup>, 2023

No Eika Bank has SIFI requirements

# Agenda

# Eligibility criteria for mortgages in the cover pool

## I. Customer categories

- Norwegian residents (Retail)
- Cooperative housing associations (common debt between multiple individuals)

## II. Credit Criteria

- Eika Boligkreditt sets the credit policy for acceptable mortgages for the cover pool (credit manual)
- No arrears

## III. Collateral

- Max LTV 75% at time of origination (80% eligibility requirement in the Norwegian legislation)
- Recent valuations (within 6 months at time of origination)
- Quarterly valuation from independent 3rd party, documented

## IV. Type of properties

- Stand alone residential mortgages
- Cooperative housing residential mortgages

## V. Type of products

- Principal repayment loans (currently no flexi loans)
- Fixed and variable interest rate loans

## VI. Origination process

- Loan-by-loan origination
- Portfolio transfer from banks' own balance sheet

# Structure of liquidity and capital support from owners

- **The Note Purchase Agreement** (NPA) is structured to ensure that EIKBOL has liquidity, at all times, sufficient to pay the Final Redemption Amount of any series of Notes in a rolling twelve-month period
- **The Shareholders' Agreement** is structured to ensure that EIKBOL will uphold a sufficient capital adequacy ratio at all times. The Owner Banks are obliged to pay their pro-rata share of any capital increase adopted by EIKBOL's general meeting and of any capital instruments to be issued
- **The Distribution Agreement** is structured to provide servicing of the mortgages and includes credit guarantees for mortgages transferred to EIKBOL and a revolving credit facility between Eikbol (borrower) and Eika bank (lender) for the value of mortgages exceeding 75% of the value of the collateral

# Summary of the mortgages in the cover pool

|                                    |             |
|------------------------------------|-------------|
| Nominal value                      | EUR 9.1 bn  |
| Number of loans                    | 52,997      |
| Arithmethic average loan (nominal) | EUR 171,325 |
| WA LTV (indexed)                   | 51.0 %      |
| WA seasoning (months)              | 34.0        |
| Doubtful loans in % of gross loans | 0.02 %      |
| Estimated over collateralization * | 9.02 %      |

Type of collateral

■ Residential (stand-alone) ■ Residential (cooperative housing)

Indexed LTV distribution

■ 0 <= 40 ■ 40 < x <= 50 ■ 50 < x <= 60  
■ 60 < x <= 70 ■ 70 < x <= 80 ■ 80 < x

Variable vs fixed rate

■ Fixed ■ Variable

Data as of 31.12.2022. EURNOK 10.52

# Current funding

- EIKBOL has the objective to be a frequent benchmark issuer in both EUR and NOK covered bond markets
- Redemptions within any future 12-month rolling period should not exceed 25% of the gross funding at the time of redemption
- Targeting a level of liquidity covering redemptions the next 12 months
- Balance sheet hedged to 3M NIBOR on both asset and liability side

## Outstanding EUR benchmark transactions

## Funding mix EIKBOL

As of 2023-01-16

## Maturity profile of funding (in million NOK)

As of 2023-01-16

# Planned long term funding

- Budget for gross long-term funding in 2023 is NOK-equivalent of 15 bn (EUR 1.4 bn)
  - NOK-equivalent of 14.1 bn in covered bonds
- EIKBOL has the flexibility to pre-fund expected need in coming periods or shifting between covered bond funding in EUR vs NOK on a discretionary basis.
- Stable growth of mortgage book

## Actual and planned long term funding (in NOK million)

## EIKBOL development in mortgages and AUM (in million €)

As of 2022-09-30

# Agenda

- The Norwegian economy
- Eika Alliance
- Eika Boligkreditt
- ESG at Eika
- Eika Boligkreditt's Green Bond Framework
- Appendix
- Disclaimer

# Strategic framework for sustainability in the Eika Alliance

- Eika uses an integrated strategy for the whole Eika Alliance, which sets a common standard for ambitions and goals based on a suitable ESG framework for sustainability
- The Eika vision of <<**We strengthen the local bank**>> describes our desired future development. Our core business thereby supports the moral and ethical compass of the local banks and the societal engagement discharged by the local savings banks in the Eika Alliance
- 3 pillar approach: **(i) sustainable local growth and change, (ii) sustainable financial products, and (iii) responsibility and sustainability in internal operations**

## Local bank 2023 Initiative

Strong and caring local banks. Driving force for growth and development for you and your local community

# Eika's main UN SDG & UNEP contributions

Eika Alliance supports the following SDG's and considers that the most relevant approach is to give emphasis to:

Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.

Make cities and human settlements inclusive, safe, resilient and sustainable

Take urgent action to combat climate change and its impacts

Eika Gruppen has signed the UN Environment Programme Finance Initiative (UNEP-FI), pledging to follow UN guidance for banks in their sustainability efforts

1. Align its business strategy to be consistent with and contribute to individuals' needs and society's goals in accordance with the SDGs
2. Continuously increase its positive impacts and ESG managing risks to, people and the environment and, to this end, establish and publish targets for areas where the most significant impacts can be achieved
3. Work responsibly with the local banks and customers to encourage sustainable practices
4. Proactively and responsibly consult, engage with and partner with relevant stakeholders to achieve society's overarching goals
5. Pursue its commitment to these principles by implementing effective management tools and a culture of responsible banking
6. Periodically review its individual and collective implementation of these principles and be transparent about and accountable for its positive and negative impacts and its contribution to society's overarching

# CO2 Footprint Analysis of the Cover Pool – Background

- Norwegian buildings are predominantly heated with electricity
- Norway has one of the greenest energy source mix for electricity (>99% renewable energy, 91% Hydro & 8% wind)
- The carbon intensity for the lifetime of a Norwegian residential building = 111g CO<sub>2</sub>/Kwh, this compares to much higher carbon intensities for other European countries<sup>1</sup>
- Over time, residential buildings in Norway have become more energy efficient – analyzing building codes provides a robust proxy as this data is available for the entire building stock (unlike EPC labels which represent 44% of all buildings)
- With each new building code, energy efficiency standards for buildings have improved over time
- Multiconsult has estimated the CO<sub>2</sub> footprint of the entire Eika cover pool on this basis

National electricity production mix (2020)

Development in calculated specific net energy demand by

# CO2 Footprint Analysis of the Cover Pool – 2022

- As part of our ‘Strategic Framework for Sustainability’, Eika values increased disclosure in terms of scope 3 carbon impact
- The current portfolio, as of December 31<sup>st</sup> 2022, represents:
  - Yearly energy demand of 973 GWh (994 GWh in 2021) for Eika funded share of collateral
  - Yearly emissions of 184,2 thousand tons CO<sub>2</sub> eq. (192,3 in 2021) based on European production mix (2019/20/21) and 13,5 thousand tons CO<sub>2</sub> eq. (15,2 in 2021) based on Norwegian production mix (2019/20/21) for Eika funded share of collateral

Distribution of the Eika cover pool by building code and building type YE2022

Distribution of the Eika cover pool by EPC label YE2022<sup>2</sup>

<sup>2</sup> EPC labels represent only 39% of the Eika cover pool, hence this is not fully representative of the entire cover pool

Eika cover pool CO2 (European mix) footprint YE2022 <sup>3</sup>

<sup>3</sup> Portfolio CO2-emissions related yearly use in energy demand distributed by age of building

# Mitigation of physical climate risk within Eika cover pool

- Every quarter, the residential mortgage portfolio is run against Eiendomsverdi's energy and climate risk data registers to update market values for the residential mortgage portfolio, as well as data on energy class, area, TEK standard and selected environmental factors
- To identify the vulnerability of the mortgage collateral to natural disasters, i.e. physical climate risk, **hazard maps of the mortgage portfolio are prepared** (data sourced from governmental insitutions<sup>1</sup>) for quick clay, flooding, landslides in steep terrain, and storm surges (sea levels)
- As the table shows, mortgage collateral in the **Eika Boligkreditt portfolio has a relatively low exposure to climate risks with the highest probability**
- The possible **financial impact of such risks are greatly mitigated by the Norwegian Mortgage Guarantee Pool**
- The Norwegian mortgage guarantee pool is a collaboration in the insurance sector which **safeguards mortgages that are implicated by natural disasters**, covering damage to real property as a result of storm, flood, storm surge, earthquake and volcanic eruption.
- **A precondition in Eika Boligkreditt's mortgage terms is that the mortgage object is insured.** Hence, the financial risk stemming from natural perils should be borne by the insurance sector rather than the mortgage borrower

→ To date, no cases in Eika Boligkreditt have led to identified loss. The company wants the residual physical risk in its residential mortgage portfolio to be low and feels this has been achieved with a requirement in the mortgage terms on insuring the mortgage object.

Physical Risk of Eika cover pool; probabilyty distribution<sup>2</sup> (NOKm impact)

| Physical climate risk<br>(figures in NOK million) | 2021  | Cumu-<br>lative |

| Low hazard                                        | 809   | 1 700           |

Flood Risk in Norway – NVE

<sup>1</sup> Climate risk data provided by Eiendomsverdi are taken from the Norwegian Mapping Authority, the Norwegian Water Resources and Energy Directorate (NVE) and the Norwegian Geotechnical Institute (NGI).

<sup>2</sup> Where years are specified, these refer to how frequently buildings in the relevant zone are likely to be affected by the relevant risk.

# New Green mortgage products

## 1. Green Mortgages (Construction or Purchase)

### New Green Mortgage Product

- In the fourth quarter 2020 the Eika Alliance banks launched an inaugural common green mortgage product.
- Green mortgages are mortgages secured by energy efficient housing with favorable loan interest rates.
- With a green mortgage, you **typically get lower interest rates** compared to a non-green mortgage (sample average in Eika 0.3%, range 0.1% -0.6%).

### Loan criteria

- The criteria for the mortgage product are based on Energy Performance Certificates (EPC).
- The criteria for qualifying for the green mortgage product in Eika will be an EPC of A or B.

## 2. Green Mortgages (Refurbishments)

### New Green Refurbishment Product

- In the first quarter 2021 the Eika Alliance launched a green mortgage product relating to refurbishments.
- A lower EPC may qualify for refurbished residential buildings in Norway with an improved energy efficiency of minimum 30% due to a combination of measures like:
  - insulation of old construction (walls, roof, floor, windows, doors)
  - balanced ventilation
  - night set-back of temperature
  - energy efficient lighting appliances
  - solar cells or collector
  - heat pump air to air, air to water, water to water or exhaust fan

# ESG Ratings in Eika Boligkreditt

## MSCI

- A (scale AAA-CCC)
- Last update May 2022

## Sustainalytics

- 27.9 risk rating
- Medium risk
- Last update April 2022

## ISS ESG

- C (scale A+ - D-)
- Status: Prime
- 2nd decile ranking
- Last update August 2021

## Norwegian Client Experience Index (CEI)

- 77.1/100
- #4 rank out of 158 companies/brands across 30 sectors
- Last update June 2022

We are working to build relationships with the ESG rating agencies to improve our scores through regular engagement with them and providing transparent data that they can collate, track and benchmark

# Eika's roadmap towards sustainable banking

In light of its sustainability objectives and its strategy, Eika has established a Green Bond Framework

# Agenda

- The Norwegian economy
- Eika Alliance
- Eika Boligkreditt
- ESG at Eika
- Eika Boligkreditt's Green Bond Framework
- Appendix
- Disclaimer

# Eika Boligkreditt Green Bond Framework

## Use of proceeds:

Allocation of the net proceeds of the Green Bonds to a loan portfolio of new and existing mortgages for energy efficient residential buildings in Norway

---

## Process for Project Evaluation and Selection:

Eika Boligkreditt will select and track the Eligible Green Loans based on information from the official Land Register. The information is received from a third-party, Eiendomsverdi

---

## Management of Proceeds:

Eika Boligkreditt intends to allocate the proceeds from the Green Bonds to a portfolio of loans that meet the Eligibility Criteria and in accordance with the evaluation and selection process

---

## Reporting:

Pre-issuance Allocation and Impact Reporting will be made available to investors.  
Eika Boligkreditt intends to report to investors within one year from the date of a Green bond transaction and annually thereafter. Reporting will be on both the Allocation and Impact of the proceeds from green bond issuance

---

## External Review:

ISS-ESG has provided a Second-Party Opinion (including on EU Taxonomy alignment) on Eika Boligkreditt's Green Bond Framework<sup>1</sup>. Eika has received CBI certification for its inaugural green bond. Eika Boligkreditt may request a limited assurance on the Allocation Report

---

# Use of Proceeds Criteria

| Eligible use of proceeds categories: Green Residential Buildings                                                                                                                                                                                                                                                                                                                                                                                                                                                |  |

<sup>2</sup> In Norway, a definition for what constitutes an 'NZEB' has not yet been implemented.

# Project Evaluation and Selection

## Process for Project Evaluation and Selection

This Framework & Green Assets are managed by a dedicated Green Bond Committee. The committee consists of: CEO, CFO and CCO in Eika Boligkreditt as issuer, and the CSR department in Eika Gruppen.

The Green Bond Committee will meet on a regular basis (at least annually) and will conduct an additional review on the selected mortgages to ensure ongoing compliance with the Eligibility Criteria.

Eligible Green Loans selected and tracked based on information from the official Land Register. Information from the Land Register regarding building year used to determine the Eligible Residential Green Buildings.

**All residential mortgages within the Cover Pool are originated in line with Eika credit risk policies. Loans secured by mortgages on Eligible Residential Green Buildings are selected as Eligible Green Loans. All selected Eligible Green Loans comply with official national standards and local laws and regulations.**

# Management of Proceeds

## Portfolio Approach

- The proceeds from Green Bonds will be managed by Eika Boligkreditt in a portfolio approach.
- Eika Boligkreditt intends to allocate these proceeds to an Eligible Green Loan Portfolio, that meet the Eligibility Criteria and in accordance with the evaluation and selection process

## Proceeds Allocation

- Sufficient Eligible Green Loans will be designated in the Eligible Green Loan Portfolio to ensure that the size of the Eligible Green Loan Portfolio matches or exceeds the total balance of all outstanding Green Bonds.
- Additional Eligible Green Loans will be added to the Eligible Green Loan Portfolio to ensure the sufficient and timely allocation of the incremental net proceeds

## Unallocated Proceeds

- Any unallocated Green Bond net proceeds will be invested in a liquidity portfolio in money market instruments

## Green Portfolio

As of 2022-12-31

| Criterion                   | Type of dwelling            | Number of objects | Area total [m2] | Area financed by EBK total | Portfolio size [MNOK] |

- a/ Eligible category
- b/ Amount committed by the issuer for the portfolio eligible for Green Bond financing
- c/ This is the share of the total budget financing
- d/ This is the share of the total portfolio costs that is Green Bond eligible
- e/ Impact indicators

- Eika green bond portfolio has an estimated average energy consumption of less than 50 per cent of the Norwegian average
- Estimated avoided CO2 emissions (entire pool) = 8,913 tons CO2/year based on European mix and 1,738 tons CO2/year based on Norwegian mix on Eika funded share of collateral**

# External Review

## 1 Second Party Opinion by ISS ESG

- Eika Boligkreditt has obtained an independent Second Party Opinion from ISS-ESG to confirm the validity of the Eika Boligkreditt's Green Bond Framework
- ISS ESG assessed the alignment of the Green Bond pool and the due diligence and selection processes in place, with the EU Taxonomy. Technical screening criteria and do no significant harm criteria have been taken into account

*"The issuer's eligible category corresponds to the following EU Taxonomy category: "Acquisition and Ownership" (activity 8.4. of the EU Taxonomy). Based on robust processes for selection of Green Projects, **the Green Bond asset pool is considered as aligned with the EU Taxonomy and the relevant activity-specific Technical Screening Criteria, Do No Significant Harm Criteria and Minimum Social Safeguards.**"*

## 2 Pre-Issuance CBI Certification

- Eika Boligkreditt has received Certification from the CBI for its inaugural EUR green bond

- **The Liquidity portfolio conforms to a conservative investment policy**
  - Nordic, German and SSA exposure, only NOK denominated
  - Portfolio weighted average time to maturity of maximum 2 years
  - Rated AA-/Aa3 or better if the maturity exceeds 100 days, or A-/A3 if the maturity less than 100 days
  - Weighted average portfolio interest rate duration of less than 0.3 years, and individual securities less than 1 year

# Strong incentive structure

With regards to the mortgages in the Eika Boligkreditt cover pool there is a 2-pillar guarantee mechanism; this is to ensure that the originating banks are held responsible for potential losses on mortgages transferred to Eika Boligkreditt

## I Loss Guarantee

- 80% of any losses, including unpaid interest, on mortgages in EBK's portfolio will be covered by the owner bank
- The guarantee from an owner bank will have a floor of (i) NOK 5 million; or (ii) 100 per cent. of the relevant owner bank's loan portfolio if it is lower than NOK 5 million
- The guarantee from an owner bank is limited to 1% of the owner bank's total portfolio
- 100% of the loan is guaranteed by the bank until the collateral is registered

## II Set-off rights

- The remaining 20% of the losses will be covered by a counter-claim on all commission receivables due from EBK to each owner bank
- The set-off rights are limited to a period of up to 12 months after such losses are incurred.

# LCR Level 1 Eligibility

- All EUR denominated Covered bonds issued by Eika Boligkreditt AS fulfil the requirements to qualify as Level 1 assets pursuant to Commission Delegated Regulation (EU) 2015/61 regarding liquidity coverage requirement for credit institutions (“LCR regulation”).
- With reference to Article 10(1)(f) of the LCR-regulation, Eika Boligkreditt AS confirms the following:
  - Covered bonds issued by Eika Boligkreditt AS meet the requirements to be eligible for the treatment set out in Article 129(4) of Regulation (EU) No 575/2013 (“CRR”) and the requirements referred to in Article 52(4) of Directive 2009/65/EC, cf. the European Commission’s website: [http://ec.europa.eu/finance/investment/legal\\_texts/index\\_en.htm](http://ec.europa.eu/finance/investment/legal_texts/index_en.htm)
  - The exposures to institutions in the cover pool meet the conditions laid down in Article 129(1)(c) and in Article 129(1) last subparagraph of CRR
  - Eika Boligkreditt AS gives the information required in Article 129(7) of CRR to its investors:  
<http://eikabk.no/investorrelations/coverpool>
  - Covered bonds issued by Eika Boligkreditt AS are assigned a credit assessment by a nominated ECAI which is at least credit quality step 1 in accordance with Article 129(4) of CRR, and the equivalent credit quality step in the event of short term credit assessment
  - Eika Boligkreditt AS’ EMTCN Programme requires a level of overcollateralization higher than the 2% needed for LCR level 1 classification

# Disclaimer

By attending a meeting where this presentation is held, or by reading the presentation slides, you agree to be bound by the following conditions:

This presentation does not constitute or form part of and should not be construed as, an offer to sell or issue or the solicitation of an offer to buy or acquire securities of Eika Boligkreditt AS (the “Company”), in any jurisdiction or an inducement to enter into investment activity. No part of this presentation, nor the fact of its distribution, should form the basis of, or be relied on in connection with, any contract or commitment or investment decision whatsoever.

This presentation has been prepared solely for use in connection with the presentation of the Company. The information contained in this document may not be reproduced, redistributed, passed on or published, in whole or in part, to any other person for any purpose. Failure to comply with this and the following restrictions may constitute a violation of applicable securities laws. No representation, warranty or undertaking, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information or the opinions contained herein. None of the Company or any of their respective affiliates, advisors, directors or employees shall have any liability whatsoever (in negligence or otherwise) for any loss howsoever arising from any use of this presentation or its contents or otherwise arising in connection with the presentation.

The statements contained in this presentation may include forward-looking statements such as statements of future expectations. These statements are based on the Company’s current views and assumptions and involve both known and unknown risks and uncertainties. Although the Company believes that the expectations reflected in any such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct. Actual results, performance or events may differ materially from those set out or implied in the forward-looking statements. Important factors that may cause such a difference include, but are not limited to: (i) general economic conditions, (ii) performance of financial markets, including market volatility and liquidity (iii) the extent of credit defaults, (iv) interest rate levels, (v) currency exchange rates, (vi) changes in the competitive climate, (vii) changes in laws and regulations, (viii) changes in the policies of central banks and/ or foreign governments, or supra-national entities.

All opinions and estimates included in this presentation constitute the Company’s judgement, as of the date of the presentation and are subject to change without notice and the Company is not under any obligation to update or keep current the information contained herein.

This presentation is not an offer of securities for sale in the United States. Neither the presentation nor any copy of it may be taken or transmitted into United States, its territories or possessions or distributed, directly or indirectly, in the United States, its territories or possessions, except to qualified institutional buyers as defined in Rule 144A under the U.S. Securities Act of 1933, as amended (the “Securities Act”) or outside the United States in reliance on Regulation S under the Securities Act. Any failure to comply with this restriction may constitute a violation of the United States securities laws.
