Eika Boligkreditt

Investor presentation

May 2023

Executive summary

The economy

- GDP-growth of +3.8% for 2022.
 Expected slightly below trend growth going forward
- Unemployment rate 1.8% in March 2023
- Relief in the mortgage lending regulation and low supply of new buildings have been positive for house prices in 2023
- Inflation expected to overshoot inflation target and economy operating at full capacity leads to higher policy rates going forward (from 3.25% today to 3.50-4.00%)

• Robust, local saving banks

- 3rd largest Norwegian banking group
- Focus on retail lending
- High asset quality with low levels of doubtful & non-performing loans, low LTV and no direct exposure to oil/offshore/shipping
- Strong and diversified deposit base
- Strong capitalization and high level of liquidity buffers
- Strong position in the local markets

Conservative cover pool

- Maximum 75% LTV for mortgages at origination and strict underwriting criteria
- 100% residential assets as mortgage collateral
- Prudent risk management with regards to refinancing, liquidity, currency, interest rate and counterparty risk
- Credit guarantees from the distributors and capital and liquidity support agreements with the owners

•GDP growth of 3.8% 2022 driven by private consumption

The Norwegian economy – Relative solid economic situation

Source: OECD Economic Outlook No. 112 (database), November 2022

- Economic GDP Mainland growth average of 1.6% p.a. last 10 years
- Strong current account surplus averaging 10.1% of GDP since 2013. +30.4% in 2022.

Government net lending (% of GDP)

Source: OECD Economic Outlook No. 112 (database), November 2022

- Significant positive government net lending expected in 2022-24 due to high energy prices
- Government Pension Fund is more than three times the size of GDP

Source : Norges Bank, Statistics Norway

Norway has a strong balance sheet

eika.

The Norwegian economy – Unemployment and inflation

Source: OECD Economic Outlook No. 112 (database), November 2022

- A stable economy has ensured a high rate of employment
- After the COVID-19 outbreak unemployment increased dramatically due to temporary lay-offs, but labour market back to normal after full reopening of the economy
- 1.8% unemployment rate in March, lower than before COVID19.

Source: NAV, March 2023

- CPI was 6.5% YoY in March. Core inflation was 6.2% YoY. Core inflation is expected to overshoot the inflation target of 2.0% over the next 2-3 years
- Subsidy scheme for electricity for Norwegian households have reduced CPI with 0.9% YoY

Inflation & inflation target

Source: Statistics of Norway & Norges Bank MPR 1/23

 A strong welfare system provides significant income protection: unemployment benefit is 62.4% of salary (capped at NOK 599,148) for a minimum of 104 weeks

eika.

The Norwegian economy – GDP

- GDP growth of 3.8% 2022 driven by private consumption (+6.8%), other investments and export
- Expected GDP growth for 2023 of 1.3%. Lower expected private consumption in 2023 of (1.2%) due to higher mortgage rates, high inflation and lower real housing prices.

- and employment is still increasing.
- and an increased volume in exports.

• Mainland GDP increased by 0.2% in Q1 2023. Q4 was revised down to 0.6% from 0.8%. The figures for the first quarter indicate that the Norwegian economy is slowing down, but it is happening rather gradually,

• Household goods consumption and dwellings investments decreased. At the same time, there was an increase in gross investments in industries

The housing market characteristics in Norway

Home ownership	 Among the highest in the world – 76.8% are owner-occupied households Total size of the mortgage market NOK 3,300 bn (EUR 320 bn) 	Personal liability
MoF lending regulation*	 Mortgages maximum LTV 85% Mortgages with an LTV > 60% are required to be amortizing Debt service ability is stress tested for a 3% - points increase in mortgage rates, minimum 7.0 % 	Mortgage
	 Total debt over gross income less than 5 Flexibility quota per quarter 10% (8% in Oslo) 	lending
Tax incentives	 All interest expenses are tax deductible in Norway at capital gains tax rate (22%) Preferential treatment of properties when calculating the wealth tax (1.0%) Capital gain on a dwelling tax-free after one year of occupancy by the owner 	

* December 9th 2022 the Ministry of Finance decided to continue the current mortgage regulation with a change for the stress test with effect from January 1st 2023. The regulation expires December 31st 2024. ** Six weeks notice until 1 July 2023

Borrowers **personally liable** for their debt – also following foreclosures and forced sales

- Prompt and efficient foreclosure process upon non-payment
- Strong incentives to service debt reflected in low arrears
- Transparent **and reliable information** about borrowers available to the lenders
- Typical legal maturity 25-30 years, on average 22-23 years
- **95.0%** of residential mortgages have variable interest rate (Q4 2022)
- Lenders may adjust interest rates with a eight week notice**
- No "sub-prime" market in Norway
- Limited **buy-to-let market**

eıka.

The housing market – Price development

- Nominal house prices have increased by an average of 5.5% per annum since 2010
- Nominal house prices increased by 1.5% in 2022 (+5.2% 2021) but -6.7% in 2nd half year 2022. +6.8% YtD 2023.

House prices larger cities (twelve-month change) 20% 15% 10% 5% 0% 2019 .2022 2021 2021 2021 04.2021 -5% Bergen Tromse Stavanger & vincinity = —Trondheim Norway Source: Eiendom Norge, Eiendomsverdi, Finn.no, NEF, April 2023

- Relief in the mortgage rate stress test in the mortgage lending regulation with effect from January 1st, 2023, and low supply of new buildings have been positive for house prices in 2023
- Higher mortgage rates are expected to give moderate development in house prices going forward

House prices (monthly and twelve-month change)

- Median house price (last 6 months) in Norway is NOK 3,75 million (€319 thousand), median house price in Oslo is NOK 5,0 million (€428 thousand)
- Average m² price last 6 months in Norway is NOK 51 thousand (€4,4 thousand) and NOK 89 thousand (€7,6 thousand) in Oslo

eika.

The housing market – Drivers of the housing market

Source: Statistics Norway, April 2023

- Housing starts down by 0.9 % in 2022 compared to 2021
- Housing starts was 6 065 in Q1, down by 24.7 % compared to Q1 2022
- Housing investments increased by 1.4 % in Q4 2022 after three quarters with negative development in housing investments. SSB expect -3.2% in housing investments for 2023 due to higher construction and material costs

- Net immigration down from above 47,000 in 2011/12 to 11,000 in 2020, but increased to 20,000 in 2021 and sharply up to 58 000 in 2022. Net births increased in 2021 compared to 2020 but sharply lower in 2022. Immigration sharply up in 2022 mainly due to immigration from Ukraine
- The population growth of 0.9% p.a. since 1997 has been driven both by excess birth rate (36%) and net immigration (64%)

Source: Norges Bank, MPR 1/23

 Average variable mortgage rates was 4.31% in April. Average deposits rates was 1.77% and average loan margins was 0.38%. Mortgage rates, deposits rates and loan margins will increase going forward both due to expectations for further increases in policy and money markets rates and the 6 week notice period before new rates takes effect for mortgages and deposits

Eika Alliance 3rd largest Norwegian banking system

- The Eika Alliance consist of a group of 49 Norwegian local banks¹, Eika Gruppen and Eika Boligkreditt
 - Total assets NOK 450 bn
 - 750,000 customers
 - 1,800 employees
 - 180 branch offices
- The banks have a wide geographical reach (presence in 10 out of 11 counties) with a strong position in the vibrant economic centres in Central and Eastern Norway

Local banks with a unique market position •

- The Eika banks rank high on client experience
- decisions
- Perceived to care about their clients

Market share in lending to retail customers

- Up to 80% in local markets

¹ 10 banks have terminated their agreements with Eika Gruppen and left the Eika Alliance. The 10 banks left the alliance when their agreements terminated October 24th, 2021, and sold their shares in Eika Gruppen, 11.9% of total number of shares, to the remaining Eika banks regulated in an agreement dated February 10th, 2022. These banks have transferred 11.2% of the portfolio in Eika Boligkreditt as of 2022Q4. Eika Boligkreditt have terminated the distribution agreement with effect from January 1st, 2022. Se appendix for a description of the effect of cancellation of the distribution agreement.

Local based knowledge and credit committee

(except the largest cities)

• 9.4 % market share retail lending in Norway

The Eika Alliance

Bank2 and Sandnes Sparebank are only shareholders in Eika Gruppen AS. OBOS and the 10 banks that left The Alliance are only shareholder in Eika Boligkreditt AS. OBOS is the largest Nordic Cooperative Housing Association, established in 1929 and is owned by 454,000 members, mostly located in the Oslo-area. More information about OBOS can be found on www.obos.no

* The 10 banks that have terminated their agreements with Eika Gruppen, sold their shares in Eika Gruppen and left the alliance

Eika Alliance

Achieving economies of scale, while being local

Eika banks

The saving banks are independent banks with very strong local focus, and operate solely in the local markets where they have been active for almost 200 years

II. Eika Gruppen

- The smaller Norwegian Savings banks established the Eika Alliance in 1997.
- Efficiency in banking operations and IT infrastructure
- Realize the economics of scale
- Jointly owned product companies (insurance, mutual funds etc)
- Shared resources to handle regulatory changes

Eika Boligkreditt III.

Provider of covered bond funding

- Work as if one integrated entity
- **Operational integration** •
- companies

Hybrid and sub.ord 1.1 % Credit inst.

0.6 %

Bonds and certificates 12.3 %

Efficiency

Offer non-core banking products through jointly owned product

Total funding sources

Eika Alliance

Focus on retail customers

- Eika banks have a large and stable retail customer base
- Retail lending accounts for 80.5% of Eika banks' total lending
- Eika banks have a higher share of retail lending compared to the other Norwegian banks
- Retail lending consist predominantly of mortgage collateralized housing loans (approx. 93% of total)
- Low average LTV of 61.2% in mortgage portfolio YE2021

Separate legal entities and a common support brand

Source: Bank analyst Eika as of Q4 2021

Eika Alliance High asset quality

- Conservative risk profile for the lending portfolios •
- Eika banks have low exposure to the corporate sector with no • lending to shipping, oil sector and relatively low exposure to commercial real estate
- Few non-performing and doubtful loans (Q4 2021):
 - Gross non-performing loans constitute 0.49% of gross loans compared to 0.39% for sector
 - Gross doubtful loans constitute 0.64% of gross loans compared to 0.97% for sector
 - Provisioning ratio on problem loans of 43.7% Q4 2021
- Gross problem loans relative to equity + loan loss reserves was 7.5% in Q2 2021, down from 8.9% in Q4 2020
- Loan loss provision ratio was -0.01% in 2021, down from 0.20% in • 2020. The average for the last 10 years is 0.13% whereas the average for the sector in 2021 was 0.03%

Sector breakdown of the loan book (incl.EBK)

Eika Alliance

Strong capitalization

• Strong capital ratios – Q4 2021

- Common equity ratio (CET1): 19.7%
- Core capital ratio: 20.8%
- Capital ratio: 22.6%
- Equity ratio (Equity/Total assets): 11.8%
- All Eika banks are well capitalized (core capital ratio)
 - Lowest: 17.6%
 - Highest: 27.9%
- All Eika banks use the standard approach under Basel II and therefore increase in mortgage riskweights will not impact capital levels of Eika banks
- If Eika banks were using the IRB method, the core and capital ratio Q4 2021 are estimated to be 27.0% and 29.3%

Other banks

*The Systemic risk buffer will be increased from 3.0 percent to 4.5 percent with effect from Dec.31st, 2023 **The CCyB will be increased from 1.5 percent to

- 2.0 percent with effect from Dec. 31st, 2022
- 2.5 percent with effect from Mar. 31st, 2023

CO2 Footprint Analysis of the Cover Pool – Background

- Norwegian buildings are predominantly heated with electricity
- Norway has one of the greenest energy source mix for electricity (>99% renewable energy, 91% Hydro & 8% wind)
- The carbon intensity for the lifetime of a Norwegian residential building = $111g CO_2/Kwh$, this compares to much higher carbon intensities for other European countries¹
- Over time, residential buildings in Norway have become more energy efficient – analyzing building codes provides a robust proxy as this data is available for the entire building stock (unlike EPC labels which represent 44% of all buildings)
- With each new building code, energy efficiency standards for buildings have improved over time
- Multiconsult has estimated the CO₂ footprint of the entire Eika cover pool on this basis

National electricity production mix (2021)

CO2 Footprint Analysis of the Cover Pool – 2022

- As part of our 'Strategic Framework for Sustainability', Eika values increased disclosure in terms of scope 3 carbon impact
- The current portfolio, as of December 31st 2022, represents:
 - Yearly energy demand of 973 GWh (994 GWh in 2021) for Eika funded share of collateral
 - Yearly emissions of 184,2 thousand tons CO₂ eq. (192,3 in 2021) based on European production mix (2019/20/21) and 13,5 thousand tons CO₂ eq. (15,2 in 2021) based on Norwegian production mix (2019/2021) for Eika funded share of collateral

Distribution of the Eika cover pool by building code and building type YE2022

³ Portfolio CO2-emissions related yearly use in energy demand distributed by age of building

Distribution of the Eika cover pool by EPC label YE2022²

² EPC labels represent only 39% of the Eika cover pool, hence this is not fully representative of the entire cover pool

Mitigation of physical climate risk within Eika cover pool

- Every quarter, the residential mortgage portfolio is run against **Eiendomsverdi's energy and climate risk data** registers to update market values for the residential mortgage portfolio, as well as data on energy class, area, TEK standard and selected environmental factors
- To identify the vulnerability of the mortgage collateral to natural disasters, i.e. physical climate risk, hazard maps of the mortgage portfolio are prepared (data sourced from governmental insitutions¹) for quick clay, flooding, landslides in steep terrain, and storm surges (sea levels)
- As the table shows, mortgage collateral in the Eika Boligkreditt portfolio has a relatively low exposure to climate risks with the highest probability
- The possible financial impact of such risks are greatly mitigated by the Norwegian Mortgage Guarantee Pool
- The Norwegian mortgage guarantee pool is a collaboration in the insurance sector which safeguards mortgages that are implicated by natural **disasters**, covering damage to real property as a result of storm, flood, storm surge, earthquake and volcanic eruption.
- A precondition in Eika Boligkreditt's mortgage terms is that the mortgage object is insured. Hence, the financial risk stemming from natural perils should be borne by the insurance sector rather than the mortgage borrower

Physical Risk of Eika cover pool; probabilty distribution² (NOKm impact)

Physical climate risk	2022
(figures in NOK million)	2022
Flood zone	1 340
Flood zone 10-year	91
Flood zone 20-year	65

Storm surge 20-year	201
Storm surge 200-year	108
Storm surge 1 000-year	34
Landslide	235
Rock hazard zone 100-year	7
Rock hazard zone 1 000-year	142
Rock hazard zone 5 000-year	194
Quick clay	1 700
High hazard	262
Medium hazard	889
Low hazard	1,060

 \rightarrow To date, no cases in Eika Boligkreditt have led to identified loss. The company wants the residual physical risk in its residential mortgage portfolio to be low and feels this has been achieved with a requirement in the mortgage terms on insuring the mortgage object.

¹ Climate risk data provided by Eiendomsverdi are taken from the Norwegian Mapping Authority, the Norwegian Water Resources and Energy Directorate (NVE) and the Norwegian Geotechnical Institute (NGI). ² Where years are specified, these refer to how frequently buildings in the relevant zone are likely to be affected by the relevant risk.

New Green mortgage products

1. Green Mortgages (Construction or Purchase)

New Green Mortgage Product

- In the fourth quarter 2020 the Eika Alliance banks launched an inaugural common green mortgage product.
- Green mortgages are mortgages secured by energy efficient housing with favorable loan interest rates.
- With a green mortgage, you **typically get lower interest rates** compared to a non-green mortgage (sample average in Eika 0.3%, range 0.1% -0.6%).

Loan criteria

- The criteria for the mortgage product are based on Energy Performance Certificates (EPC).
- The criteria for qualifying for the green mortgage product in Eika will be an EPC of A or B.

New Green Refurbishment Product

- product relating to refurbishments.
- a combination of measures like:
 - doors)
 - balanced ventilation

 - solar cells or collector
 - fan

2. Green Mortgages (Refurbishments)

• In the first guarter 2021 the Eika Alliance launched a green mortgage

 A lower EPC may qualify for refurbished residential buildings in Norway with an improved energy efficiency of minimum 30% due to

• insulation of old construction (walls, roof, floor, windows,

 night set-back of temperature energy efficient lighting appliances • heat pump air to air, air to water, water to water or exhaust

Eika's roadmap towards sustainable banking

In light of its sustainability objectives and its strategy, Eika has established a Green Bond Framework

 Positive marketing effect on stakeholders

The Norwegian economy

Eika Alliance

Eika Boligkreditt

ESG at Eika

Eika Boligkreditt's Green Bond Framework

Appendix

Disclaimer

Eika Boligkreditt Green Bond Framework

Use of proceeds:

Allocation of the net proceeds of the Green Bonds to a loan portfolio of new and existing mortgages for energy efficient residential buildings in Norway

Process for Project Evaluation and Selection:

Eika Boligkreditt will select and track the Eligible Green Loans based on information from the official Land Register. The information is received from a third-party, Eiendomsverdi

Management of Proceeds:

Eika Boligkreditt intends to allocate the proceeds from the Green Bonds to a portfolio of loans that meet the Eligibility Criteria and in accordance with the evaluation and selection process

Reporting: Pre-issuance

Pre-issuance Allocation and Impact Reporting will be made available to investors. Eika Boligkreditt intends to report to investors within one year from the date of a Green bond transaction and annually thereafter. Reporting will be on both the Allocation and Impact of the proceeds from green bond issuance

External Review:

ISS-ESG has provided a Second-Party Opinion (including on EU Taxonomy alignment) on Eika Boligkreditt's Green Bond Framework¹. Eika has received CBI certification for its inaugural green bond. Eika Boligkreditt may request a limited assurance on the Allocation Report

Use of Proceeds Criteria

Eligible use of proceeds categories: Green Residential Buildings

1. New Residential buildings in Norway (built 2012 or later)

- New or existing Norwegian apartments that comply with the Norwegian building codes of 2010 (TEK10) or 2017 (TEK17). Hence, built in 2012 or later
- New or existing Norwegian other residential dwellings that comply with the Norwegian building codes of 2010 (TEK10) or 2017 (TEK17). Hence, built in 2012 or later

2. Residential buildings in Norway (built before 2012)

• Existing Norwegian residential buildings built using older building codes than TEK10 with EPC-labels A and B. These buildings may be identified in data from the Energy Performance Certificate (EPC) database

3. Refurbished Residential buildings in Norway with an improved energy efficiency of 30%

One of two criteria below must be met:

- Refurbished Norwegian residential buildings with at least two steps of improvement in energy label compared to the calculated label based on building code in the year of construction
- Refurbished Norwegian residential buildings with at least a 30% improvement in energy efficiency measured in specific energy, kWh/m2, compared to the calculated label based on building code in the year of construction

In addition, Eika's due diligence processes ensures alignment and compliance iii. All 8 ILO Core Labour Conventions are enshrined in <u>Norwegian law</u> 	Aligned						

¹ See ISS-ESG SPO for Taxonomy Alignment Assessment: <u>https://eikbol.no/Investor-relations/green-bonds</u> 40 ² In Norway, a definition for what constitutes an 'NZEB' has not yet been implemented.

Project Evaluation and Selection

Process for Project Evaluation and Selection

This Framework & Green Assets are managed by a dedicated Green Bond Committee. The committee consists of: CEO, CFO and CCO in Eika Boligkreditt as issuer, and the CSR department in Eika Gruppen.

The Green Bond Committee will meet on a regular basis (at least annually) and will conduct an additional review on the selected mortgages to ensure ongoing compliance with the Eligibility Criteria.

Eligible Green Loans selected and tracked based on information from the official Land Register. Information from the Land Register regarding building year used to determine the Eligible Residential Green Buildings.

All residential mortgages within the Cover Pool are originated in line with Eika credit risk policies. Loans secured by mortgages on Eligible Residential Green Buildings are selected as Eligible Green Loans. All selected Eligible Green Loans comply with official national standards and local laws and regulations.

Management of Proceeds

Portfolio Approach

- The proceeds from Green Bonds will be managed by Eika Boligkreditt in a portfolio approach.
- Eika Boligkreditt intends to allocate these proceeds to an Eligible Green Loan Portfolio, that meet the Eligibility Criteria and in accordance with the evaluation and selection process

Proceeds Allocation

- Sufficient Eligible Green Loans will be designated in the Eligible Green Loan Portfolio to ensure that the size of the Eligible Green Loan Portfolio matches or exceeds the total balance of all outstanding Green Bonds.
- Additional Eligible Green Loans will be added to the Eligible Green Loan Portfolio to ensure the sufficient and timely allocation of the incremental net proceeds

Unallocated Proceeds

• Any unallocated Green Bond net proceeds will be invested in a liquidity portfolio in money market instruments

Norwegian average

- average
- of collateral

• Eika green bond portfolio has an estimated average energy consumption of less than 50 per cent of the Norwegian

• Estimated avoided CO2 emissions (entire pool) = 8,913 tons CO2/year based on European mix and 1,738 tons CO2/year based on Norwegian mix on Eika funded share

External Review

- Second Party Opinion by ISS ESG
- Eika Boligkreditt has obtained an independent Second Party Opinion from ISS-ESG to confirm the validity of the Eika Boligkreditt's Green Bond Framework
- ISS ESG assessed the alignment of the Green Bond pool and the due diligence and selection processes in place, with the EU Taxonomy. Technical screening criteria and do no significant harm criteria have been taken into account

"The issuer's eligible category corresponds to the following EU Taxonomy category: "Acquisition and Ownership" (activity 8.4. of the EU Taxonomy). Based on robust processes for selection of Green Projects, the Green Bond asset pool is considered as aligned with the EU Taxonomy and the relevant activityspecific Technical Screening Criteria, Do No Significant Harm Criteria and **Minimum Social** Safeguards."

- Nordic, German and SSA exposure, only NOK denominated •
- Portfolio weighted average time to maturity of maximum 2.5 years •
- Rated AA-/Aa3 or better if the maturity exceeds 100 days, or A-/A3 if • the maturity less than 100 days
- Weighted average portfolio interest rate duration of less than 0.3 • years, and individual securities less than 1 year

Public Sector Covered Bonds

Covered Bonds

Appendix **Strong incentive structure**

With regards to the mortgages in the Eika Boligkreditt cover pool there is a 2-pillar guarantee mechanism; this is to ensure that the originating banks are held responsible for potential losses on mortgages transferred to Eika Boligkreditt

Loss Guarantee

- 80% of any losses, including unpaid interest, on mortgages in EBK's portfolio will be covered by the owner bank
- The guarantee from an owner bank will have a floor of (i) NOK 5 million; or (ii) 100 per cent. of the relevant owner bank's loan portfolio if it is lower than NOK 5 million
- The guarantee from an owner bank is limited to 1% of the • owner bank's total portfolio
- 100% of the loan is guaranteed by the bank until the • collateral is registered

- to each owner bank
- months after such losses are incurred.

Set-off rights

• The remaining 20% of the losses will be covered by a counter-claim on all commission receivables due from EBK

The set-off rights are limited to a period of up to 12

Appendix **LCR Level 1 Eligibility**

- All EUR denominated Covered bonds issued by Eika Boligkreditt AS fulfil the requirements to qualify as Level 1 assets pursuant to Commission Delegated Regulation (EU) 2015/61 regarding liquidity coverage requirement for credit institutions ("LCR regulation").
- With reference to Article 10(1)(f) of the LCR-regulation, Eika Boligkreditt AS confirms the following:
 - Covered bonds issued by Eika Boligkreditt AS meet the requirements to be eligible for the treatment set out in Article 129(4) of Regulation (EU) No 575/2013 ("CRR") and the requirements referred to in Article 52(4) of Directive 2009/65/EC, cf. the European Commission's website: http://ec.europa.eu/finance/investment/legal_texts/index_en.ht m

- subparagraph of CRR
- of CRR to its investors:
- classification

• The exposures to institutions in the cover pool meet the conditions laid down in Article 129(1)(c) and in Article 129(1) last

• Eika Boligkreditt AS gives the information required in Article 129(7)

http://eikabk.no/investorrelations/coverpool

• Covered bonds issued by Eika Boligkreditt AS are assigned a credit assessment by a nominated ECAI which is at least credit quality step 1 in accordance with Article 129(4) of CRR, and the equivalent credit quality step in the event of short term credit assessment

• Eika Boligkreditt AS' EMTCN Programme requires a level of overcollaterization higher than the 2% needed for LCR level 1

- EIKBOL can terminate a distribution agreement with an EBKD with 12 months notice
- In the event a distribution agreement is terminated, obligations ٠ continues to apply with regards to the various agreements;
 - At the expiry date for the distribution agreement, the EBKD will no longer have the right to transfer new residential mortgages to EIKBOL
 - The EKBD is required to uphold its mortgage portfolio in ٠ line with the redemptions of EIKBOL's funding
 - The EBKD has continued responsibilities for servicing the • mortgages in the existing residential mortgage portfolio, including other rights and obligations pursuant to the guarantee, custody, commission and shareholder agreements and the agreement on the purchase of covered bonds

Mergers Eika banks in 2021/22

Surnadal Sparebank and Sparebank1 Nordvest

- The banks merged May 1st 2021
- The merged bank is part of the Sparebank1 Alliance
- The name for the merged bank is Sparebank1 Nordmøre
- Surnadal was a member in The Eika Alliance while Sparebank1 Nordvest was a member of the Sparebank1 Alliance.
- Both banks are located on the northern part of the west coast of Norway
- Allan Troelsen, CEO in Surnadal Sparebank, is CEO in the merged bank and Runar Wiik, chair in Sparebank1 Nordvest, is chair in the board of the merged bank
- Total assets, including mortgages transferred to Eika and Sparebank1 Boligkreditt, of NOK 30 billion
- Rationales for the merger was to improve competitiveness in local markets, expand market reach, improved profitability and attractiveness as an employer and further enhance ability to contribute to develop their local communities

Tysnes Sparebank and Etne Sparebank

- December 16th 2020 the boards in the banks nounced starting negotiations with the intention orge the banks
- ר member in The Eika Alliance while Etne a collaborating partner in DSS rsisting of 9 saving banks on the ^c Norway SOUL
- decided. ^che merged bank will join Currently ¹ be decided in 2021 the Eika Allıc
- Rune Ramsvik, C∟ `bank, is proposed to as CEO in the merge. [•] Sandstå , CEO te. in Tysnes Sparebank is _F rir for the board of the merged bank
- Total assets, including transferred Boligkreditt, of NOK 6.8 billion

- Rationales for considering to merge are . size and improve competitiveness in Sunnhordland, reduce funding costs and secure iobs
- The merged banks will be more attractive for clients, owners, employees and further enhance ability to contribute to develop their local communities

Romerike Sparebank and Blaker Sparebank • October 27th, 2021, the boards in the banks approved a letter of intent to merge the banks • December 13th, 2021, the boards in the banks approved the agreement to merge the banks • January 25th, 2022, the general meetings/boards of trustees approved the agreement to merge the banks • June 30th Finanstilsynet approved the merger Both banks are members in the Eika Alliance Blaker Sparebank is merged into Romerike Sparebank with Romerike Sparebank as the continuing bank. The merger took effect October 1 st rd • Siri Berggren, CEO in Romerike Sparebank, is CEO in the merged bank and Svein Aaling, chair of the board in Blaker Sparebank, is chair of the board in the merged bank • Total assets for the merged bank, including mortgages transferred to Eika Boligkreditt, of NOK 17.9 billion

• Rationales for the merger was to improve competitiveness in local markets, improved profitability and attractiveness as an employer and further enhance ability to contribute to develop their local communities

Mergers Eika banks in 2021/22 continued

Arendal og Omegns Sparekasse and Østre Agder Sparebank

- April 19th, 2022, the boards in the banks approved an agreement to merge the banks
