Eika Boligkreditt

Investor presentation

September 2025

Executive summary

The economy

- Weak GDP-growth of +0.6% for 2024.
 Growth expected to pick up to +1.7% in 2025
- Strong labour market. Unemployment rate 2.2% in August 2025
- House prices +5.6% YtD 2025, +6.4% in 2024 and +0.9% in 2023
- Inflation of 3.1% and wage growth of 5.6% in 2024
- Policy rates peaked at 4.5% in December 2023. Norges Bank unexpectedly cut rates by 0.25 %points in June 2025

Robust, local saving banks

- 3rd largest Norwegian banking group
- Focus on retail lending
- High asset quality with low levels of doubtful & non-performing loans, low LTV and no direct exposure to oil/offshore/shipping
- Strong and diversified deposit base
- Strong capitalization and high level of liquidity buffers
- Strong position in the local markets

Conservative cover pool

- Maximum 75% LTV for mortgages at origination and strict underwriting criteria
- 100% residential assets as mortgage collateral
- Prudent risk management with regards to refinancing, liquidity, currency, interest rate and counterparty risk
- Credit guarantees from the distributors and capital and liquidity support agreements with the owners

The Norwegian economy – Key indicators

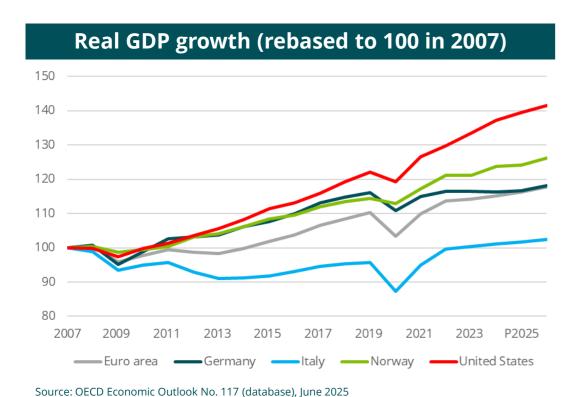

- Constitutional monarchy; Non-EU member (EEA member); Population of 5.94 million
- Aaa / AAA / AAA rated country (all with stable outlook)
- GDP per capita amongst the highest in the OECD countries estimated to be 112% higher than the average in EU (27 countries)

- Weak GDP growth in 2024 of 0.6%. A decline in investment in residential and commercial buildings, as well as subdued growth in private consumption was a drag for growth in 2024
- Statistics Norway expect growth of +1.7% for 2025 due to pick up in private consumption and strong public consumption and investments

	2019	2020	2021	2022	2023	2024	2025E	2026E	2027E
GDP growth (Mainland)	2.3 %	-2.8 %	4.5 %	4.3 %	0.7 %	0.6 %	1.7 %	1.5 %	2.1 %
Consumer price inflation	2.2 %	1.3 %	3.5 %	5.8 %	5.5 %	3.1 %	2.8 %	2.5 %	2.5 %
Unemployment	3.9 %	4.7 %	4.4 %	3.2 %	3.6 %	4.0 %	4.1 %	4.1 %	4.0 %
Private Consumption	1.0 %	-6.2 %	5.1 %	7.8 %	-1.2 %	1.4 %	2.4 %	2.5 %	3.0 %

Houseprices	2.5 %	4.3 %	10.5 %	5.2 %	-0.5 %	2.7 %	5.5 %	4.1 %	3.7 %
Mortgage rate (flexi loans)	3.0 %	2.6 %	2.1 %	2.9 %	5.0 %	6.0 %	5.9 %	5.4 %	4.9 %
Government net lending as % of GDP	6.5 %	-2.6 %	10.3 %	25.5 %	16.5 %	13.2 %	10.0 %	10.3 %	n/a
Government pension fund / GDP	280 %	298 %	244 %	217 %	300 %	380 %	n/a	n/a	n/a

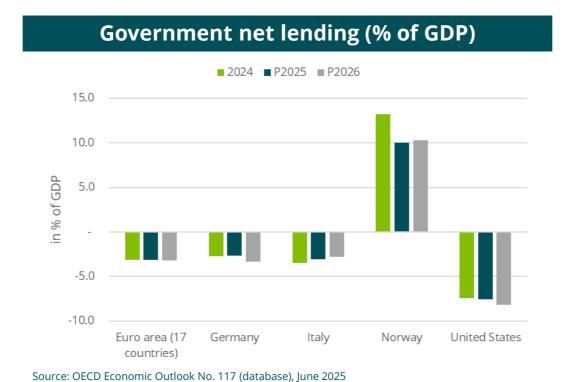

The Norwegian economy - Relative solid economic situation

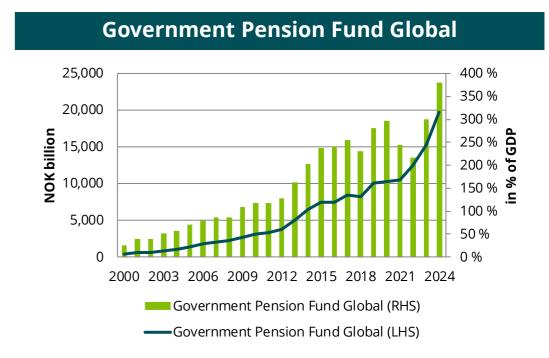

- Economic GDP Mainland growth average of 1.45% p.a. last 10 years
- Strong current account surplus averaging 11.3% of GDP since 2015. +17.1% in 2024.

- Significant positive government net lending expected in 2024-26 due to high energy prices
- The Government Pension Fund is 380% of the size of GDP

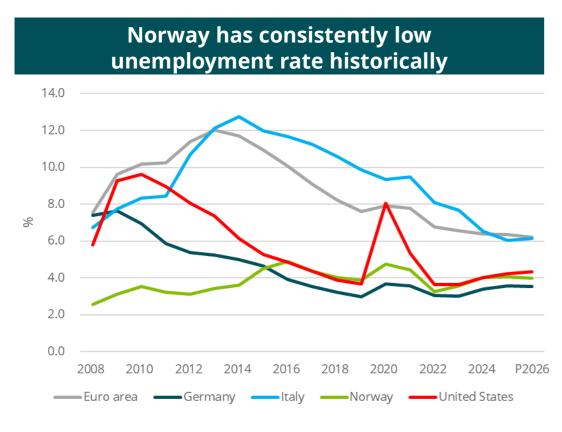

Source: Norges Bank, Statistics Norway

Norway has a strong balance sheet

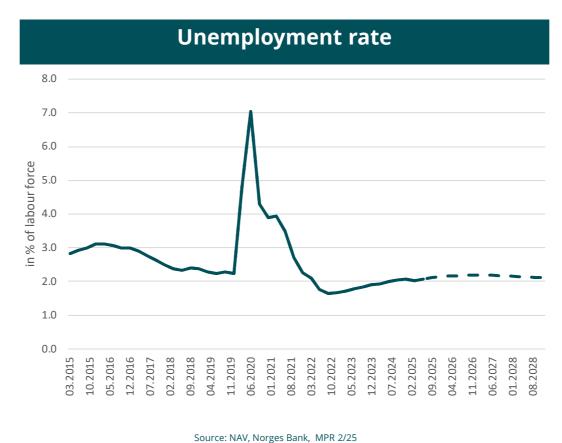

The Norwegian economy – Unemployment and inflation

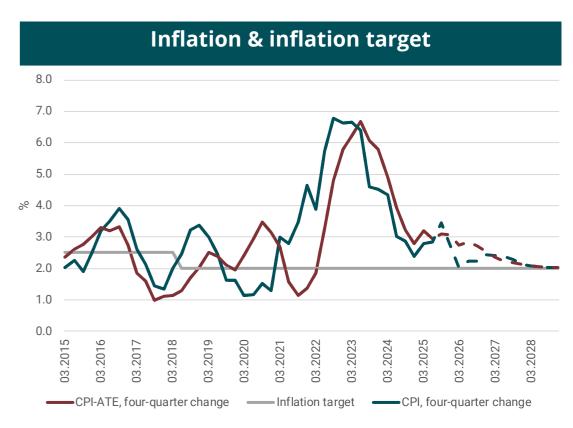

- A stable economy has ensured a high rate of employment
- 2.2% unemployment rate in August. Stabil unemployment expected going forward

- CPI +3.1% in 2024 versus + 5.5% in 2023
- CPI was 3.3% YoY and +0.8% MoM in July. Core inflation was 3.1% YoY and +0.8% MoM. Inflation is expected to overshoot the inflation target of 2.0% in 2025/26
- Food prices up by 5.9% YoY and rents up by 3.8% YoY

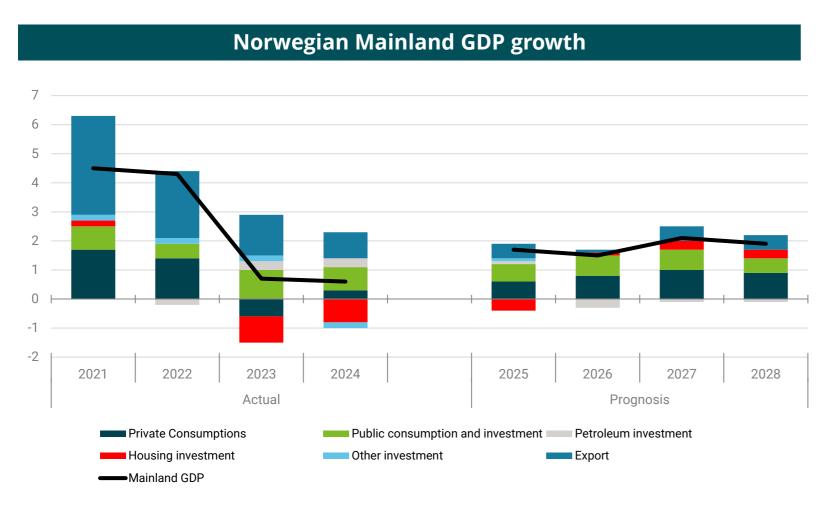

Source: Statistics of Norway & Norges Bank MPR 2/25

 A strong welfare system provides significant income protection: unemployment benefit is 62.4% of salary (capped at NOK 744,168) for a maximum of 104 weeks

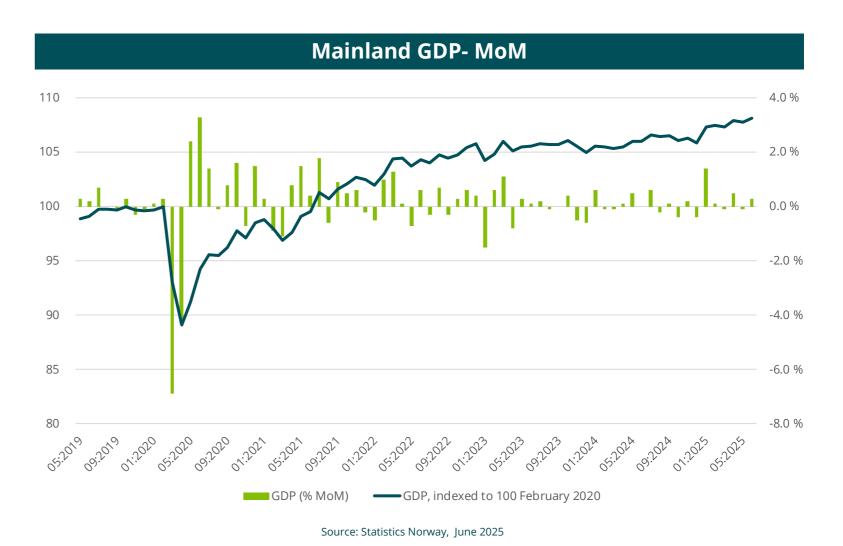

The Norwegian economy - GDP

Source: Statistics Norway, Konjunkturtendensene 2/2025

- GDP growth has been moderate since mid 2022 due to higher interest rates, high inflation and weak foreign demand. Going forward we expect increased activity
- Trade conflicts will not curb growth in the Norwegian economy, lower interest rates and clear wage growth will see household consumption increase
- Economic activity will also pick up because of strong public spending (partly defense-related) and an increase in housing investments (from 2.half 2025)

- Mainland Norway's GDP increased 0.6 per cent in O2 2025 after an increase of 1.2 per cent in Q1
- The increase in the second quarter was broadly based, but the growth was particularly strong in manufacturing sectors, retail trade and fish farming
- Housing investments rose by 4.0% in Q2 after an increase by 0.7% in Q1. Before Q1 housing investments had fallen eight quarters in a row.
- The combination of stronger-than-expected growth and persistent wage pressures raises questions about whether Norges Bank will in fact follow through with a September rate cut.

The housing market characteristics in Norway

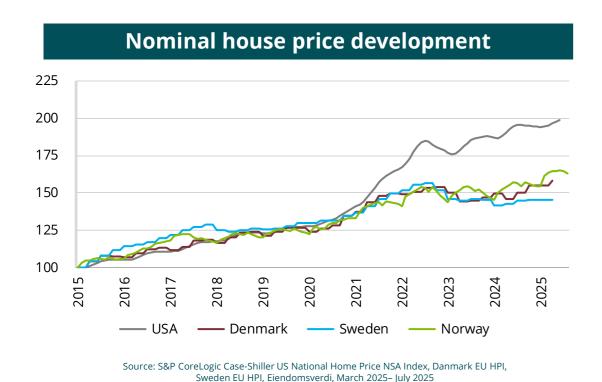

Home ownership	 Among the highest in the world – 76.8% are owner-occupied households Total size of the mortgage market NOK 3,500 bn (EUR 300 bn)
MoF lending regulation*	 Mortgages maximum LTV 90% Mortgages with an LTV > 60% are required to be amortizing Debt service ability is stress tested for a 3% - points increase in mortgage rates, minimum 7.0 % mortgage rate Total debt over gross income less than 5 Flexibility quota per quarter 10% (8% in Oslo)
Tax incentives	 All interest expenses are tax deductible in Norway at capital gains tax rate (22%) Preferential treatment of primary properties when calculating the wealth tax (1.0%) Capital gain on a dwelling tax-free after one year of occupancy by the owner

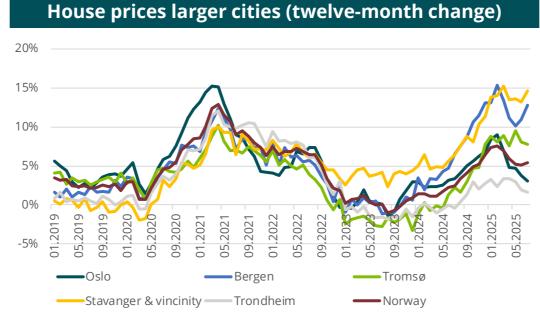

Personal liability	 Borrowers personally liable for their debt – also following foreclosures and forced sales Prompt and efficient foreclosure process upon non-payment Strong incentives to service debt reflected in low arrears Transparent and reliable information about borrowers available to the lenders
Mortgage lending	 Typical legal maturity 25-30 years, on average 22-23 years 94.8% of residential mortgages have variable interest rate (Q4 2024) Lenders may adjust interest rates with two month notice No "sub-prime" market in Norway Limited buy-to-let market

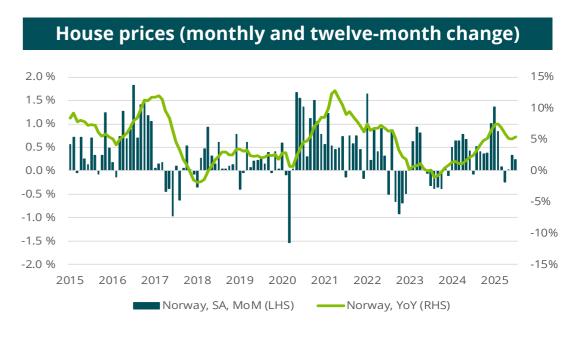

^{*} December 12th, 2024, the Ministry of Finance decided to continue the current mortgage regulation with a change for maximum LTV with effect from January 1st 2025. The regulation expires December 31st, 2026

The housing market - Price development

Source: Eiendom Norge, Eiendomsverdi og Finn.no, July 2025

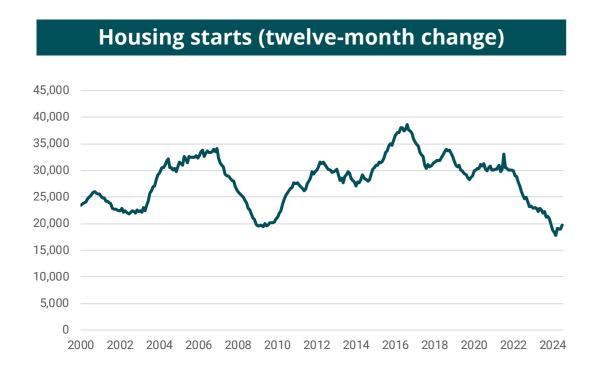

- Nominal house prices in Norway have increased by an average of 4.7% per annum since 2015
- Nominal house prices increased by 5.6% YtD 2025 and 6.4% in 2024 after 0.9% in 2023
- Expectations of lower mortgage rates in 2025, positive development real disposable income in 2024/25, low unemployment, population growth and low supply of new buildings going forward will lead to higher housing prices

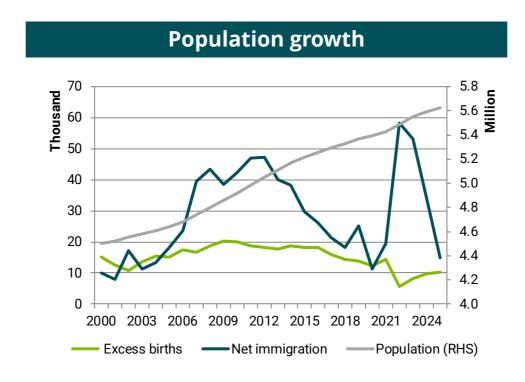

Source: Eiendom Norge, Eiendomsverdi, Finn.no, NEF, July 2025

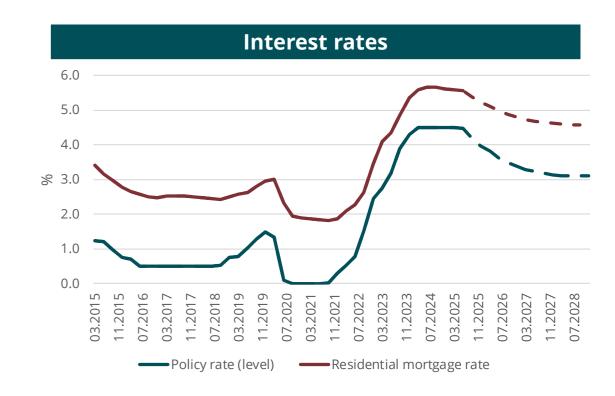

- Median house price (last 6 months) in Norway is NOK 4.179 million (€352 thousand), median house price in Oslo is NOK 5.7 million (€480 thousand)
- Average m² price last 6 months in Norway is NOK 55 thousand (€4.68 thousand) and NOK 99 thousand (€8.34 thousand) in Oslo

The housing market – Drivers of the housing market

Source: Statistics Norway, June 2025

- #Housings starts in 2024 was 18 679, down 18% compared to 2023 and down 37% compared to 2022. #Housing starts in 2024 is lowest since 1993
- Housing investments -18% in 2023 and -19% in 2024 due to higher construction and material costs and lower housing starts.
- SSB expect -14% for 2025, but housing investment are expected to pick up in 2. half of 2025

Source: Statistics Norway, Q2 2025

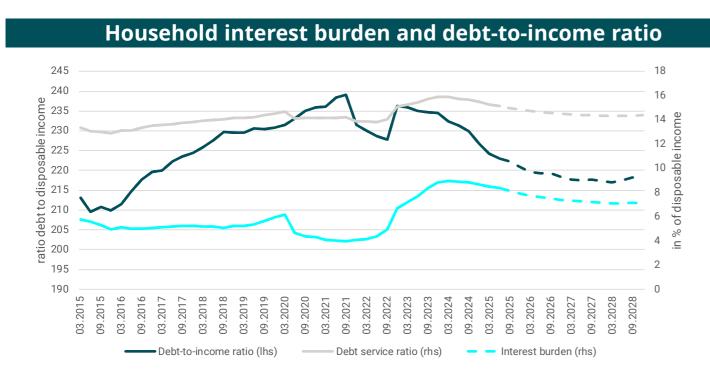

- Lower immigration (due to fewer Ukrainians) in 1.half of 2025, but still population growth
- Population growth of 44 100 in 2024, both due to surplus of births of 10 000 and net immigration of 34 000
- 77 000 in immigration from Ukraine 2021-24
- Ukrainians are 2nd largest immigration group in Norway after from Poland
- The population growth of 0.9% p.a. since 1999 has been driven both by excess birth rate (34%) and net immigration (66%)

Source: Norges Bank, MPR 2/25

 Average variable mortgage rates was 5.71% on outstanding mortgages in June. Average deposits rates was 3.14% and average mortgage loan margins was 1.15%.

3rd largest Norwegian banking system

The Eika Alliance consist of a group of 46 Norwegian local banks, Eika Gruppen and Eika Boligkreditt

- Total assets NOK 550 bn
- 820 000 customers
- 2,200 employees
- 207 branch offices

The banks have a wide geographical reach (presence in 14 out of 15 counties) with a strong position in the vibrant economic centres in Central and Eastern Norway

- The Eika banks rank high on client experience
- Local based knowledge and credit committee decisions
- Perceived to care about their clients

Market share

- Up to 80% in local markets
- 9.32% market share retail lending YE 2024
- 4.13% markets share corporate lending
- 10.30% market share retail deposits

The Eika Alliance

Valdres SPAREBANK

Oppdalsbanken

SPAREBANK

J jæren sparebank

Achieving economies of scale, while being local

Eika banks

 The saving banks are independent banks with very strong local focus, and operate solely in the local markets where they have been active for almost 200 years

II. Eika Gruppen

- The smaller Norwegian Savings banks established the Eika Alliance in 1997.
- Efficiency in banking operations and IT infrastructure
- Realize the economics of scale
- Jointly owned product companies (insurance, mutual funds etc)
- Shared resources to handle regulatory changes

III. Eika Boligkreditt

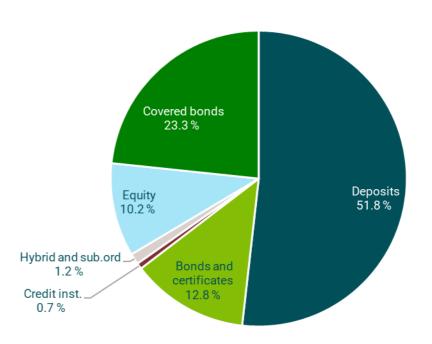

Provider of covered bond funding

Efficiency

- Work as if one integrated entity
- Operational integration
- Offer non-core banking products through jointly owned product companies

Total funding sources

Focus on retail customers

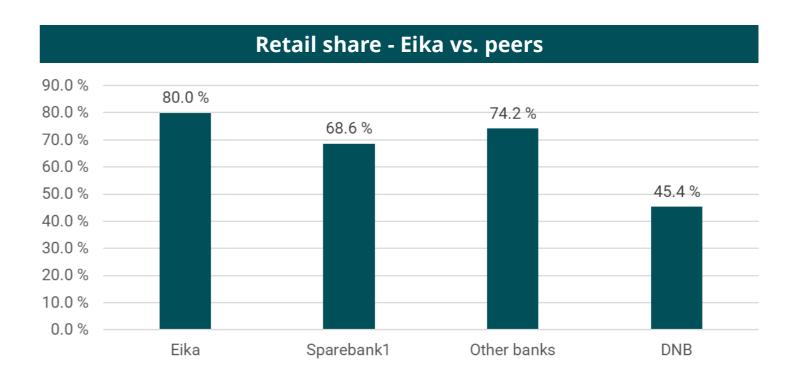

- Retail lending accounts for 80.0% of Eika banks' total lending including transferred to Eika Boligkreditt
- Eika banks have a higher share of retail lending compared to the other Norwegian banks
- 99.1% of the bank retail lending YE 2024 is mortgage collateralized housing loans
- Low average LTV of 61.3% in mortgage portfolio YE2024

Local market focus

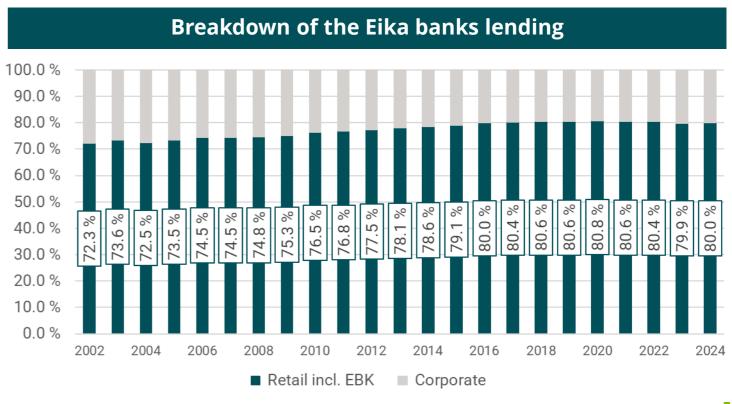

- Decisions are made close to the customer and transaction originations
- Each bank continues to develop its link with its local community
- Keeping its own name and legal entity

Separate legal entities and a common support brand

Source: Bank analyst Eika as of YE2024

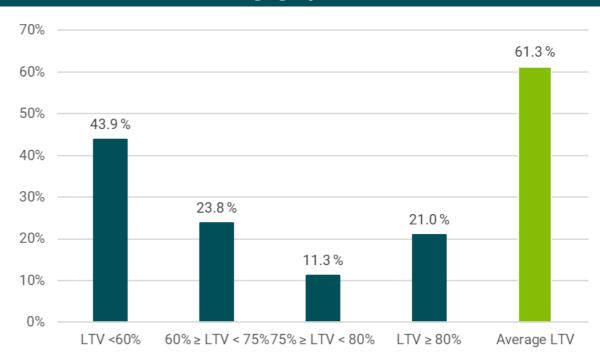

High asset quality

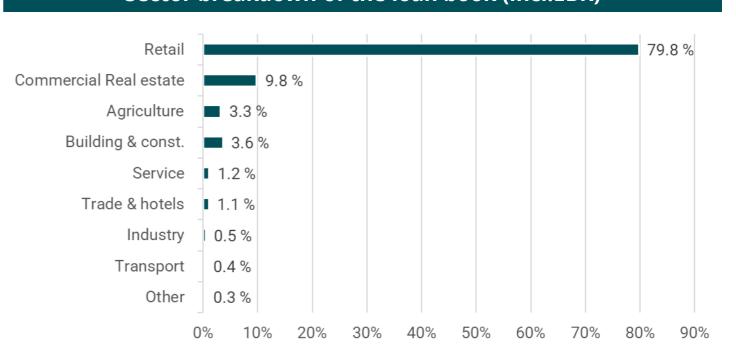

- Conservative risk profile for the lending portfolios
- Eika banks have low exposure to the corporate sector with no lending to shipping, oil sector and relatively low exposure to commercial real estate
- Few non-performing and doubtful loans:
 - Gross non-performing loans constitute 0.85% of gross loans YE 2024 (0.68% YE 2023) compared to 0.81% for sector
 - Gross doubtful loans constitute 1.04 % of gross loans YE 2024 (0.93% YE 2023) compared to 0.59% for sector
 - Provisioning ratio on problem loans YE 2024 of 30.1% (31.2% YE 2023)
- Gross problem loans relative to equity + loan loss reserves was 11.2 % YE 2024, up from 9.6 % YE 2023
- Loan loss provision ratio was +0.16% in 2024 (0.13% in 2023). The average for the last 10 years is 0.12% whereas the average for the sector the last 10 years is 0.15%

Low LTV in mortgage portfolio (bank book)

Source: Eika Boligkreditt YE 2024

Sector breakdown of the loan book (incl.EBK)

Strong capitalization

Strong capital ratios - YE 2024

• Common equity ratio (CET1): 20.2%

Core capital ratio: 21.4%

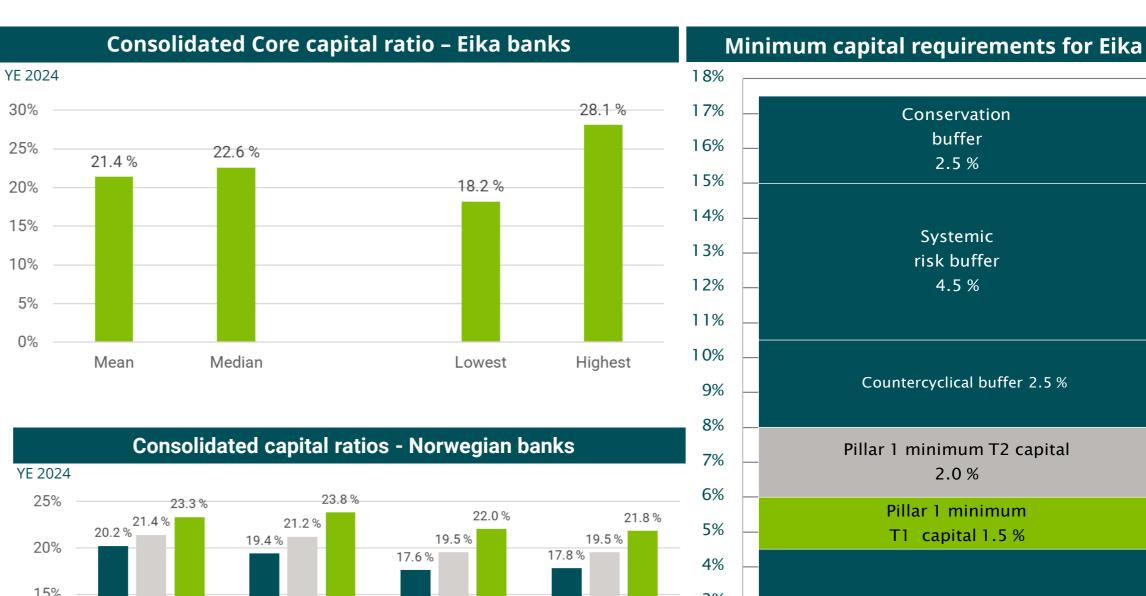

Capital ratio: 23.3%

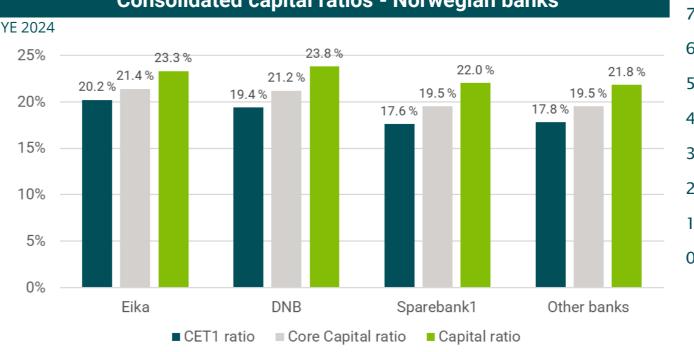

Equity ratio (Equity/Total assets): 13.2%

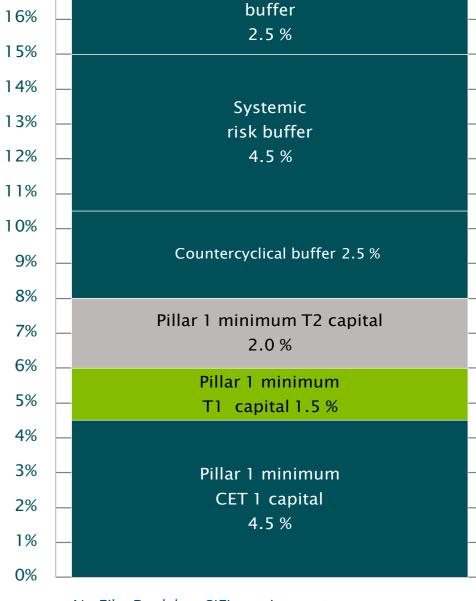

All Eika banks are well capitalized (consolidated core capital ratio)

> 18.2% Lowest: Highest: 28.1%

- All Eika banks use the standard approach under Basel II until 2Q25. Basle II has few and conservatively calibrated risk weights. Starting in 2Q25 all Eika banks will report accordingly to CRR3 (new standard method)
- If Eika banks were using the IRB method, the core and capital ratios are estimated to have been at 30.4% and 32.6% YE 2024 (given 20% risk floor, if 25% risk floor 27.6% and 29.7%) - on bank level

No Eika Bank has SIFI requirements

Norwegian covered bonds

Norway's covered bonds legislation

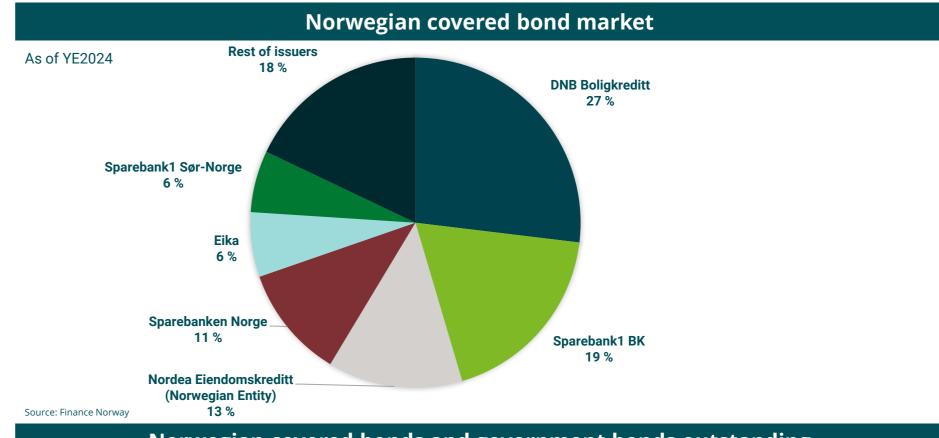

- Specialist banking principle, ring fencing of assets and transparency
- EU harmonized covered bond framework from July 2022
- More information in ECBC summary of framework*

II. Regulatory

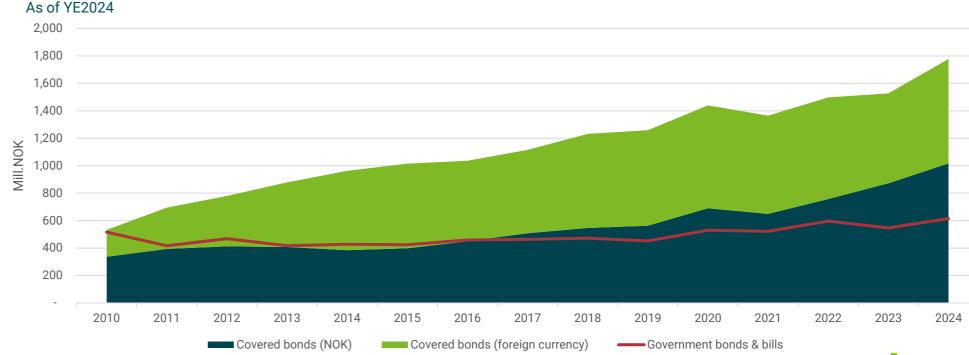

- Norwegian covered bonds are category 1 for LCR purposes (above EUR 500 mill)
- 10% preferential risk weighting

III. Eika Boligkreditt (EIKBOL) covered bonds

- Premium Covered Bond
- ECBC labelled (<u>www.coveredbondlabel.com</u>)
- EIKBOL covered bonds are rated **Aaa** by Moody's
- Issued by Eika Boligkreditt AS with a A3 long-term issuer rating (stable outlook), A2 Counterparty Risk Rating
- Committed minimum OC of 5%**
- 12 month soft-bullet on all CBs

Norwegian covered bonds and government bonds outstanding

eika.

Eligibility criteria for mortgages in the cover pool

Customer categories

- Norwegian residents (Retail)
- Cooperative housing associations (common debt between multiple individuals, Retail)

IV. Type of properties

- Stand alone residential mortgages
- Cooperative housing residential mortgages

II. Credit Criteria

- Eika Boligkreditt sets the credit policy for acceptable mortgages for the cover pool (credit manual)
- No arrears

V. Type of products

- Principal repayment loans
- Fixed and variable interest rate loans

III. Collateral

- Max LTV 75% at time of origination (80% eligibility requirement in the Norwegian legislation)
- Recent valuations (within 6 months at time of origination)
- Quarterly valuation from independent 3rd party, documented

VI. Origination process

- Loan-by-loan origination
- Portfolio transfer from banks' own balance sheet

Structure of liquidity and capital support from owners

- The Note Purchase Agreement (NPA) is structured to ensure that EIKBOL has liquidity, <u>at all times</u>, sufficient to pay the <u>Final Redemption Amount</u> of any series of Notes. The NPA is capped at 20% of total outstanding notes of Covered bonds
- The Shareholders' Agreement is structured to ensure that EIKBOL will uphold a <u>sufficient capital</u> adequacy ratio at all times. The Owner Banks are obliged to pay their pro-rata share of any capital increase adopted by EIKBOL's general meeting and of any capital instruments to be issued
- The Distribution Agreement is structured to provide servicing of the mortgages and includes credit guarantees for mortgages transferred to EIKBOL and a revolving credit facility between EIKBOL (borrower) and Eika bank (lender) for the value of mortgages no longer eligible for inclusion in the asset coverage test due to exceeding the maximum LTV limit for the collateral.

Eika Alliance

Eika Boligkreditt

ESG at Eika

Eika Boligkreditt's Green Bond Framework

Appendix

Disclaimer

Strategic framework for sustainability in the Eika Alliance

- Eika uses an integrated strategy for the whole Eika Alliance, which sets a common standard for ambitions and goals based on a suitable ESG framework for sustainability
- The Eika vision of << We strengthen the local bank>> describes our desired future development. Our core business thereby supports the moral and ethical compass of the local banks and the societal engagement discharged by the local savings banks in the Eika Alliance

3 pillar approach: (i) sustainable local growth and change, (ii) sustainable financial products, and (iii) responsibility and sustainability in internal operations

Be an initiator for sustainable local growth, development and green readjustment through credit decisions and advisory services

- Ambition: Be the local strategist for local businesses and an initiator for sustainable, local growth and readjustment
- 2 Strengthen communication about and continuing improvement of sustainable saving products
 - Ambition: Offer a menu of sustainable and green saving products
- Strengthen responsible and sustainable internal operations

 Ambition: The Files Alliance shall improve and prioritize
 - Ambition: The Eika Alliance shall improve and prioritize responsible and sustainable internal operation to enable a credible position regarding sustainable growth and readjustment process

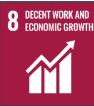

Net Zero Ambition

In 2024 all Eika Alliance banks have set Net Zero Ambitions on the portfolio level and will set sub goals and action plans during 2025

Eika's main UN SDG and other initiatives

Eika Alliance supports the following SDG's and considers that the most relevant approach is to give emphasis to:

Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.

Make cities and human settlements inclusive, safe, resilient and sustainable

Take urgent action to combat climate change and its impacts

Eika draws on the following initiatives:

- 1. UN Sustainable Development Goals (SDGs)
- 2. UN Principles for Responsible Investment (PRI)
- 3. UN Global Compact
- 4. Eco-Lighthouse
- 5. Guide against Greenwashing
- 6. Women in Finance Charter
- 7. Roadmap for green competitiveness in the Norwegian financial sector

ESG screening for all investments

Exclusion

PFG exclusion

Excludes all companies as Pension Fund Global

Also excludes all companies not engaging to follow international norms and standards

- UN Global Compact (UNGC)
- UN Guiding Principles on Business and Human Rights (UNGPs)
- OECD Guidelines for Multinational Enterprises

Sector exclusion

Excludes all companies within the following sectors:

- Coal
- Tobacco
- Gambling/Casino

Product exclusion

Excludes all companies with the following products/activities:

- Palm oil (all)
- Tobacco producers (all)
- Controversial weapons (all)
- Oil sand (>10% of production)
- Pornography (>10%)
- Gambling (>10%)
- Tobacco related product (>25%)
- Tobacco distribution-/sales (>25%)

In addition we exclude all companies involved in serious controveries involved with corruption, environmental accidents, labor conflicts etc.

Excluded companies

Selection

Portfolio Construction

Positive screening

Within the remaining eligible investment universe, the portfolio manager can invest freely.

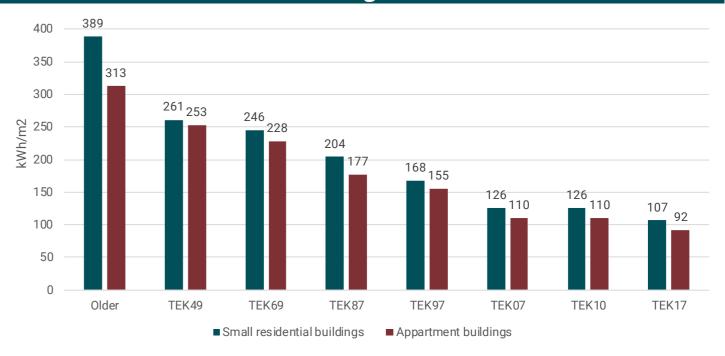

However, when choosing between two equally attractive companies the company with the best ESG score is chosen

CO2 Footprint Analysis of the Cover Pool - Background

- Norwegian buildings are predominantly heated with electricity
- Norway has one of the greenest energy source mix for electricity (100% renewable energy, 91% Hydro & 9% wind)
- The carbon intensity for the lifetime of a Norwegian residential building = 115g CO₂/KWh, this compares to much higher carbon intensities for other European countries¹
- Over time, residential buildings in Norway have become more energy efficient – analyzing building codes provides a robust proxy as this data is available for the entire building stock (unlike EPC labels which represent about 50% of all buildings)
- With each new building code, energy efficiency standards for buildings have improved over time
- Multiconsult has estimated the CO₂ footprint of the entire Eika cover pool on this basis

Development in calculated specific net energy demand by building code

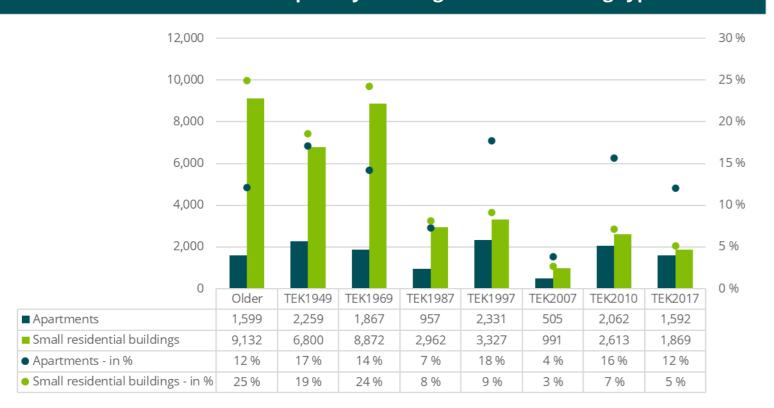

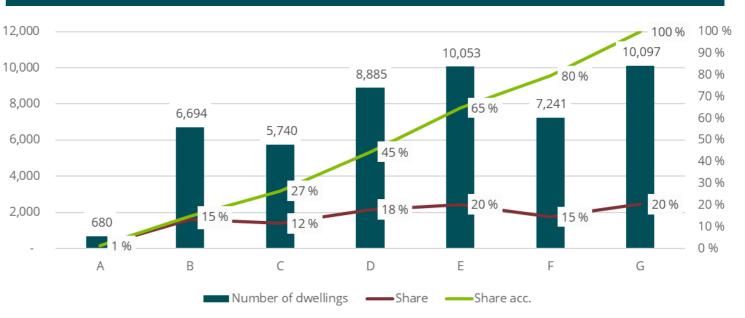

CO2 Footprint Analysis of the Cover Pool – 2024

- As part of our 'Strategic Framework for Sustainability', Eika values increased disclosure in terms of scope 3 carbon impact
- The current portfolio, as of December 31st 2024, represents:
 - Yearly energy demand of 805 GWh (930 GWh in 2023) for Eika funded share of collateral
 - Portfolio emission intensity (kg CO₂ -eq/m²) of 3.2 based on NVE Physically delivered electricity

Distribution of the Eika cover pool by building code and building type YE2024

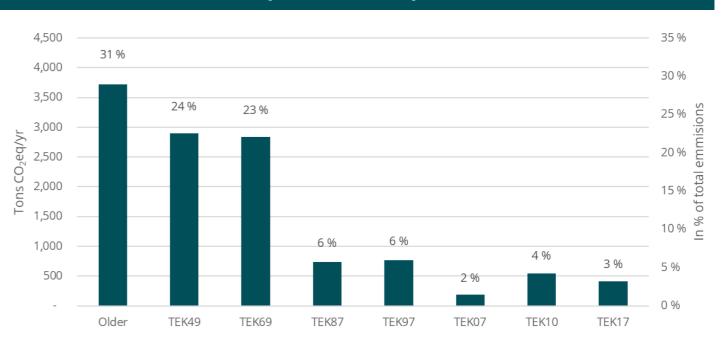

Distribution of the Eika cover pool by EPC label YE2024²

² EPC labels includes estimated EPC labels and gives coverage ratio of 98% in the portfolio

Eika cover pool CO2 footprint YE2024 ³

Mitigation of physical climate risk within Eika cover pool

- Every quarter, the residential mortgage portfolio is run against Eiendomsverdi's energy and climate risk data registers to update market values for the residential mortgage portfolio, as well as data on energy class, area, TEK standard and selected environmental factors
- To identify the vulnerability of the mortgage collateral to natural disasters, i.e. physical climate risk, hazard maps of the mortgage portfolio are prepared (data sourced from governmental insitutions¹) for quick clay, flooding, landslides in steep terrain, and storm surges (sea levels)
- As the table shows, mortgage collateral in the Eika Boligkreditt portfolio has a relatively low exposure to climate risks with the highest probability
- The possible financial impact of such risks are greatly mitigated by the Norwegian Mortgage Guarantee Pool
- The Norwegian mortgage guarantee pool is a collaboration in the insurance sector which safeguards mortgages that are implicated by natural disasters, covering damage to real property as a result of storm, flood, storm surge, earthquake and volcanic eruption.
- A precondition in Eika Boligkreditt's mortgage terms is that the mortgage object is insured. Hence, the financial risk stemming from natural perils should be borne by the insurance sector rather than the mortgage borrower
- → To date, no cases in Eika Boligkreditt have led to identified loss. The company wants the residual physical risk in its residential mortgage portfolio to be low and feels this has been achieved with a requirement in the mortgage terms on insuring the mortgage object.

¹ Climate risk data provided by Eiendomsverdi are taken from the Norwegian Mapping Authority, the Norwegian Water Resources and Energy Directorate (NVE) and the Norwegian Geotechnical Institute (NGI).

² Where years are specified, these refer to how frequently buildings in the relevant zone are likely to be affected by the relevant risk.

Green mortgage products

1. Green Mortgages (Construction or Purchase)

Green Mortgage Product

- In the fourth quarter 2020 the Eika Alliance banks launched an inaugural common green mortgage product.
- Green mortgages are mortgages secured by energy efficient housing with favorable loan interest rates.
- With a green mortgage, you **typically get lower interest rates** compared to a non-green mortgage (sample average in Eika 0.3%, range 0.1-0.6%).

Loan criteria

- The criteria for the mortgage product are based on Energy Performance Certificates (EPC).
- The criteria for qualifying for the green mortgage product in Eika will be an EPC of A or B.

2. Green Mortgages (Refurbishments)

Green Refurbishment Product

- In the first quarter 2021 the Eika Alliance launched a green mortgage product relating to refurbishments.
- A lower EPC may qualify for refurbished residential buildings in Norway with an improved energy efficiency of minimum 30% due to a combination of measures like:
 - insulation of old construction (walls, roof, floor, windows, doors)
 - balanced ventilation
 - night set-back of temperature
 - energy efficient lighting appliances
 - solar cells or collector
 - heat pump air to air, air to water, water to water or exhaust fan

Eika Boligkreditt Green Bond Framework 2024

Use of proceeds:

Allocation of the net proceeds of the Green Bonds to a loan portfolio of new and existing mortgages for energy efficient residential buildings in Norway and refurbished residential buildings

Eligibility criteria aligned with EU Taxonomy Substantial Contribution criteria for Climate Change Mitigation

Process for Project Evaluation and Selection:

A dedicated Green Bond Committee (GBC) has been established and will meet at least annually. The GBC is responsible for: evaluating eligible green loans, reviewing the content of the framework, observation and compliance with standards and regulation, ensuing external documents are updated, allocation/impact reporting and risk mitigation

Management of Proceeds:

Eika Boligkreditt intends to allocate the proceeds from the Green Bonds to a portfolio of loans that meet the Eligibility Criteria and in accordance with the evaluation and selection process

Reporting:

Eika Boligkreditt intends to report to investors within one year from the date of a Green bond transaction and annually thereafter. Reporting will be on both the Allocation and Impact of the proceeds from green bond issuance

External Review:

ISS-ESG has provided a Second-Party Opinion (including on EU Taxonomy alignment) on Eika Boligkreditt's Green Bond Framework. Eika Boligkreditt may request a limited assurance on the Allocation Report

Use of Proceeds Criteria

Eligibility criteria: Green Residential Buildings

- 1. Residential buildings in Norway
- Buildings built ≥2021: Buildings complying with the relevant NZEB-10% threshold¹
- Buildings built <2021: EPC A label or within the top 15% low carbon buildings in Norway²
- 2. Refurbished residential buildings in Norway
- Leading to a reduction of primary energy demand (PED) of at least 30%3 or comply with the applicable requirements for major renovations

Alignment with international initiatives & involved parties:

ICMA GBP category	UN SDG	EU Taxonomy Climate Change Mitigation Substantial Contribution	EU Taxonomy Do No Significant Harm & Miniumum Social Safeguards	Consultants & Third Parties
Green Buildings	9 INDUSTRY INNUVATION AND INFRASTRUCTURE 11 SUSTAINABLE CITIES AND COMMUNITIES	 NZEB-10%for buildings built from end 2020 Top 15% approach for buildings built up until end 2020 ≥30% improvement in Primary Energy Demand for refurbishments 	 Compliance with international, national and local Regulation and monitoring of environmental and social risks (including physical climate risks) Minimum Social Safeguards for mortgages to households 'not applicable'⁴ 	Multiconsult ISS ESG ▷

¹ In accordance with the EU Taxonomy Climate Delegated Act, buildings built from 1 January 2021 onwards should meet the 'NZEB -10%' criterion. In Norway, NZEB definitions were announced on 31 January 2023. Compliant buildings are assessed against the respective NZEB threshold published by the Norwegian Ministry, expressed as specific energy demand in kWh/m2. At the time of writing all Norwegian buildings with EPC labels of A and some EPC B labels are compliant with NZEB-10%. The full methodology and selection approach used for NZEB-10% compliant buildings will be published in a technical report from a specialized external consultant (Multiconsult). In addition, model estimates from Eiendomsverdi for PED may be used, as outlined in Eiendomsverdi's report.

² Qualifying building codes and/or EPC labels will be determined with the support of a specialised external consultant and may take into account guidance from the Norwegian Ministry and may use model estimates from Eiendomsverdi for PED where EPCs are missing. The Norwegian residential buildings under building codes TEK10 and TEK17 and EPC label A or B are within the top 15% as of FY23 statistics

³ Qualifying buildings will be determined with the support of a specialised external consultant. The initial primary energy demand and the estimated improvement is based on a detailed building survey, an energy audit conducted by an accredited independent expert or any other transparent and proportionate method, and validated through an Energy Performance Certificate. The 30% improvement results from an actual reduction in primary energy demand (where the reductions in net primary energy demand through renewable energy sources are not taken into account), and can be achieved through a succession of measures within a maximum of three years

⁴ As per guidance laid out in the Final Report on Minimum Safeguards from the EU Commission

EU Taxonomy Assessment – performed by ISS-Corporate¹

Eika Green Bond Portfolio
Alignment Q3 2024

100% aligned (NOK 20.7bn total Green Eligible Assets)

EU Enviro.		EUT Eco	nomic Activity: 7.7 Acquisition & Ownership of Buildings	
Objective		EUT Criteria	₩ Eika Green Bond 🧖	Alignment
1. Mitigation	Substantial Contribution	i. Built <2021: EPC A or Top 15% approachii. Built ≥2021: NZEB -10%	 Buildings built ≥2021: Buildings complying with the relevant NZEB-10% threshold ² Buildings built <2021: EPC A label or within the top 15% low carbon buildings in Norway ³ 	Aligned
2. Adaptation	Do No Significant Harm	i. Reducing material physical climate risksii. Supporting system adaptationiii. Monitoring adaptation results	 i. Green buildings are aligned with Norwegian environmental legislations via the building code, where an environmental risk assessment is conducted at the planning stage and relevant measures are applied to reduce identified risks ii. Green buildings do not increase the risks of adverse climate impact on other stakeholders and align with national adaptation efforts iii. Adaptation results can be monitored and measured → TEK10 & TEK17 Building Code Regulation (= Eika Green Bond Criteria) ensures new buildings are not prone to significant Physical Climate Risks e.g. Flooding; Storm Surges, Landslides → Eika Boligkreditt quarterly assessment of physical climate risks associated with properties in the cover pool 	Aligned
-	Minimum Social Safeguards	 i. OECD Guidelines on Multinational Enterprises ii. UN Guiding Principles on Business and Human Rights iii. ILO Core Labour Conventions 	→ Minimum Social Safeguards for mortgages to households 'not applicable' ⁴	Aligned

¹ While the Final Delegated Acts for Mitigation and Adaptation were published in June 2023, the Technical Screening Criteria allow for discretion on the methodologies in determining alignment in certain cases. Therefore, at this stage, the alignment with the EU Taxonomy has been evaluated on a "best efforts basis."

³ Qualifying building codes and/or EPC labels will be determined with the support of a specialised external consultant and may take into account guidance from the Norwegian Ministry and may use model estimates from Eiendomsverdi for PED where EPCs are missing. The Norwegian residential buildings under building codes TEK10 and TEK17 and EPC label A or B are within the top 15% as of FY23 statistics
4 As per guidance laid out in the Final Report on Minimum Safeguards from the EU Commission

² In accordance with the EU Taxonomy Climate Delegated Act, buildings built from 1 January 2021 onwards should meet the 'NZEB -10%' criterion. In Norway, NZEB definitions were announced on 31 January 2023. Compliant buildings are assessed against the respective NZEB threshold published by the Norwegian Ministry, expressed as specific energy demand in kWh/m2. At the time of writing all Norwegian buildings with EPC labels of A and some EPC B labels are compliant with NZEB-10%. The full methodology and selection approach used for NZEB-10% compliant buildings will be published in a technical report from a specialized external consultant (Multiconsult). In addition, model estimates from Eiendomsverdi for PED may be used, as outlined in Eiendomsverdi's report.

Project Evaluation and Selection

Process for Project Evaluation and Selection

This Framework & Green Assets are managed by a dedicated Green Bond Committee (GBC). The committee consists of: CEO, CFO and CCO in Eika Boligkreditt as issuer, and the Executive Vice President in Eika Gruppen's department for bank governance.

The GBC will meet on a regular basis (at least annually) and will conduct an additional review on the selected mortgages to ensure ongoing compliance with the Eligibility Criteria.

Eligible Green Loans selected and tracked based on information from the official Land Register and Eiendomsverdi.

Information regarding building year, EPC label (actual/estimated) and energy demand data (actual/estimated) is used to determine the Eligible Residential Green Buildings.

All residential mortgages within the Cover Pool are originated in line with Eika credit risk policies. Loans secured by mortgages on Eligible Residential Green Buildings are selected as Eligible Green Loans. All selected Eligible Green Loans comply with official national standards, local laws & regulations.

Management of Proceeds

Portfolio Approach

- The proceeds from Green Bonds will be managed by Eika Boligkreditt in a portfolio approach.
- Eika Boligkreditt intends to allocate these proceeds to an Eligible Green Loan Portfolio, that meet the Eligibility Criteria and in accordance with the evaluation and selection process

Proceeds Allocation

- Sufficient Eligible Green Loans will be designated to the Eligible Green Loan Portfolio to ensure that the size of the Eligible Green Loan Portfolio matches or exceeds the total balance of all outstanding Green Bonds
- Additional Eligible Green Loans will be added to the Eligible Green Loan Portfolio to ensure the sufficient and timely allocation of the incremental net proceeds

Unallocated Proceeds

 Any unallocated Green Bond net proceeds will be invested in a liquidity portfolio in money market instruments. Eika intends to allocate at least a portion of unallocated proceeds towards ESG orientated assets.

EU PAB Exclusions

 Eika considers its green bonds as complying with the Paris Aligned Benchmarks Exclusions Criteria¹

Multiconsult

- Eika green bond portfolio has an estimated average energy consumption of less than 50 per cent of the Norwegian average
- Estimated avoided CO² emissions (entire pool) = 8,331 tons CO²/year based on European mix and 1,302 tons CO²/year based on Norwegian mix on Eika funded share of collateral

External Review

Second Party Opinion 2024 by ISS ESG

- Eika Boligkreditt has obtained an independent Second Party Opinion from ISS-ESG to confirm the validity of the Eika Boligkreditt's Green Bond Framework, this includes:
 - Assessment of alignment with Green Bond Principles (GBP), as administered by the International Capital Market Association (ICMA) (as of June 2021 with June 2022 Appendix 1)
 - Assessment of alignment of the Green Bond Framework with the EU Taxonomy. Technical screening criteria for substantial contribution, do no significant harm & minimum social safeguards have been taken into account for EU economic activities 7.2 & 7.7 with respect to EU Environmental Objective: Climate Mitigation

"The Issuer has defined a formal concept for its green bonds regarding use of proceeds, processes for project evaluation and selection, management of proceeds and reporting. **This concept is in line with the Green Bond Principles**"

"Eika Boligkreditt's project characteristics, due diligence processes and policies have been assessed against the requirements of the EU Taxonomy (Climate Delegated Act of June 2023), on a best efforts basis.¹ The nominated project categories are considered to be:

- Aligned with the Climate Change Mitigation Criteria
- Aligned with the Do No Significant Harm Criteria, except for 7.2 Renovation of Existing Buildings
- Not applicable for the Minimum Safeguards requirements" ISS-CORPORATE

ASSESSMENT SUMMARY

SPO SECTION	EVALUATION
Part I: Alignment with GBP	√ Aligned
Part II: Sustainability quality of the selection criteria	✓ Positive
Part III: Alignment with EU Taxonomy	Aligned , except DNSH for 7.2
Part IV: Consistency of green bonds with Eika Boligkreditt's sustainability strategy	Consistent with Issuer's sustainability strategy

SUSTAINABILITY QUALITY OF THE SELECTION CRITERIA

USE OF PROCEEDS (PRODUCTS/SERVICES)	CONTRIBUTION OR OBSTRUCTION	SUSTAINABLE DEVELOPMENT GOALS		
Green Buildings	Contribution	7 AFFORDABLE AND CLEAN ENERGY 13 CLIMATE ACTION

Total portfolio	1,515,423,884	100 %	1.13

- The Liquidity portfolio conforms to a conservative investment policy
 - Nordic, German and SSA exposure, only NOK denominated
 - Portfolio weighted average time to maturity of maximum 2 years
 - Rated AA-/Aa3 or better if the maturity exceeds 100 days, or A-/A3 if the maturity less than 100 days
 - Weighted average portfolio interest rate duration of less than 0.3 years, and individual securities less than 1 year

Liquidity portfolio by sectors

Strong incentive structure

With regards to the mortgages in the Eika Boligkreditt cover pool there is a 2-pillar guarantee mechanism; this is to ensure that the originating banks are held responsible for potential losses on mortgages transferred to Eika Boligkreditt

Loss Guarantee

- 80% of any losses, including unpaid interest, on mortgages in EBK's portfolio will be covered by the owner bank
- The guarantee from an owner bank will have a floor of (i) NOK 5 million; or (ii) 100 per cent. of the relevant owner bank's loan portfolio if it is lower than NOK 5 million
- The guarantee from an owner bank is limited to 1% of the owner bank's total portfolio
- 100% of the loan is guaranteed by the bank until the collateral is registered

Set-off rights

- The remaining 20% of the losses will be covered by a counter-claim on all commission receivables due from EBK to each owner bank
- The set-off rights are limited to a period of up to 12 months after such losses are incurred.

LCR Level 1 Eligibility

- All EUR denominated Covered bonds issued by Eika Boligkreditt AS fulfil the requirements to qualify as Level 1 assets pursuant to Commission Delegated Regulation (EU) 2015/61 regarding liquidity coverage requirement for credit institutions ("LCR regulation").
- With reference to Article 10(1)(f) of the LCR-regulation, Eika Boligkreditt AS confirms the following:
 - Covered bonds issued by Eika Boligkreditt AS meet the requirements to be eligible for the treatment set out in Article 129(4) of Regulation (EU) No 575/2013 ("CRR") and the requirements referred to in Article 52(4) of Directive 2009/65/EC, cf. the European Commission's website: http://ec.europa.eu/finance/investment/legal_texts/index_en.ht m

- The exposures to institutions in the cover pool meet the conditions laid down in Article 129(1)(c) and in Article 129(1) last subparagraph of CRR
- Eika Boligkreditt AS gives the information required in Article 129(7) of CRR to its investors: http://eikabk.no/investorrelations/coverpool
- Covered bonds issued by Eika Boligkreditt AS are assigned a credit assessment by a nominated ECAI which is at least credit quality step 1 in accordance with Article 129(4) of CRR, and the equivalent credit quality step in the event of short term credit assessment
- Eika Boligkreditt AS' EMTCN Programme requires a level of overcollaterization higher than the 2% needed for LCR level 1 classification

Disclaimer

By attending a meeting where this presentation is held, or by reading the presentation slides, you agree to be bound by the following conditions:

This presentation does not constitute or form part of and should not be construed as, an offer to sell or issue or the solicitation of an offer to buy or acquire securities of Eika Boligkreditt AS (the "Company"), in any jurisdiction or an inducement to enter into investment activity. No part of this presentation, nor the fact of its distribution, should form the basis of, or be relied on in connection with, any contract or commitment or investment decision whatsoever.

This presentation has been prepared solely for use in connection with the presentation of the Company. The information contained in this document may not be reproduced, redistributed, passed on or published, in whole or in part, to any other person for any purpose. Failure to comply with this and the following restrictions may constitute a violation of applicable securities laws. No representation, warranty or undertaking, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information or the opinions contained herein. None of the Company or any of their respective affiliates, advisors, directors or employees shall have any liability whatsoever (in negligence or otherwise) for any loss howsoever arising from any use of this presentation or its contents or otherwise arising in connection with the presentation.

The statements contained in this presentation may include forward-looking statements such as statements of future expectations. These statements are based on the Company's current views and assumptions and involve both known and unknown risks and uncertainties. Although the Company believes that the expectations reflected in any such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct. Actual results, performance or events may differ materially from those set out or implied in the forward-looking statements. Important factors that may cause such a difference include, but are not limited to: (i) general economic conditions, (ii) performance of financial markets, including market volatility and liquidity (iii) the extent of credit defaults, (iv) interest rate levels, (v) currency exchange rates, (vi) changes in the competitive climate, (vii) changes in laws and regulations, (viii) changes in the policies of central banks and/ or foreign governments, or supra-national entities.

All opinions and estimates included in this presentation constitute the Company's judgement, as of the date of the presentation and are subject to change without notice and the Company is not under any obligation to update or keep current the information contained herein.

This presentation is not an offer of securities for sale in the United States. Neither the presentation nor any copy of it may be taken or transmitted into United States, its territories or possessions or distributed, directly or indirectly, in the United States, its territories or possessions, except to qualified

institutional buyers as defined in Rule 144A under the U.S. Securities Act of 1933, as amended (the "Securities Act") or outside the United States in reliance on Regulation S under the Securities Act. Any failure to comply with this restriction may constitute a violation of the United States securities laws.
